## **Sacred Cow Mad Cow:**

Sacred Cow, Mad Cow Madeleine Ferrières, 2006 Traces the history of consumers fear of certain foods beginning with accounts from the fourteenth century and describes legislative attempts to regulate meat processing in recent years

*Pathogens Crossing Borders* Cornelia Knab, 2022-07-29 The increasing globalization of trade travel and transport since the mid 19th century had unwelcome consequences one of them was the spread of contagious animal diseases over greater distances in a shorter time than ever before Borders and national control strategies proved to be insufficient to stop the pathogens Not surprisingly the issue of epizootics epidemics of animals was among the first topics to be addressed by international meetings from the 1860s onwards *Pathogens Crossing Borders* explores the history of international efforts to contain and prevent the spread of animal diseases from the early 1860s to the years after the Second World War As an innovative contribution to global history and the history of internationalism the book investigates how disease experts politicians and state authorities developed concepts practices and institutional structures at the international level to tackle the spread of animal diseases across borders By following their activities in dealing with a problem area which was and is today of enormous political social public health and economic relevance the book reveals the historical challenges of finding common international responses to complex and pressing global issues for which there are no easy solutions Sacred

Cow? Canada's Response to the BSE Crisis Christopher John Kukucha, Joanne Luu, 2007 *Upsetting Food* Jeffrey Haydu, 2021-05-28 Compares U S food reform campaigns through historical social movements each driven by capitalism but shaped by activism **Discomfort Food** Marni Reva Kessler, 2021-02-02 An intricate and provocative journey through

nineteenth century depictions of food and the often uncomfortable feelings they evoke At a time when chefs are celebrities and beautifully illustrated cookbooks blogs and Instagram posts make our mouths water scholar Marni Reva Kessler trains her inquisitive eye on the depictions of food in nineteenth century French art Arguing that disjointed senses of anxiety nostalgia and melancholy underlie the superficial abundance in works by Manet Degas and others Kessler shows how in their images food presented a spectrum of pleasure and unease associated with modern life Utilizing close analysis and deep archival research Kessler discovers the complex narratives behind such beloved works as Manet's *Fish Still Life* and Antoine Vollon's *Internet famous Mound of Butter* Kessler brings to these works an expansive historical review creating interpretations rich in nuance and theoretical implications She also transforms the traditional paradigm for study of images of edible subjects showing that simple categorization as still life is not sufficient *Discomfort Food* marks an important contribution to conversations about a fundamental theme that unites us as humans food Suggestive and accessible it reveals the very personal often uncomfortable feelings hiding within the relationship between ourselves and the representations of what we eat **Medical Consulting by Letter in France, 1665-1789** Robert Weston, 2016-04-29 Ailing seventeenth and

eighteenth century French men and women members of their families or their local physician or surgeon could write to high

profile physicians and surgeons seeking expert medical advice This study the first full length examination of the practice of consulting by letter provides a cohesive portrayal of some of the widespread ailments of French society in the latter part of the early modern period It explores how and why changes occurred in the relationships between those who sought and those who provided medical advice Previous studies of epistolary medical consulting have limited attention to the output of one or two practitioners but this study uses the consultations of around 100 individual practitioners from the mid seventeenth century to the time of the Revolution to give a broad picture of patients and physicians perceptions of illnesses and how they should be treated on a day to day basis It makes a unique contribution to the history of medicine as no other study has been undertaken in the consulting by letter of surgeons as opposed to physicians It is shown that the well known disputation between physicians and surgeons tells only a part of the history whereas in fact necessity required that these two professions had to work together for the patients good

International Trade and Health Protection Tracey Epps, 2008-01-01 This detailed and fully referenced text is a valuable resource both for practitioners and academics Michael Blakeney International Trade Law and Regulation Interspersing law with societal context this volume by Dr Epps stands out among WTO analysis The author offers a delightfully balanced view on the nature and origin of SPS measures including references to history whilst at the same time mastering the hard law of the SPS Agreement in detail Practitioners will enjoy the detailed analysis of WTO dispute settlement A reference book for practice and academia and also a very very good read Geert Van Calster Katholieke Universiteit Leuven Belgium This book examines and critiques the WTO s Agreement on the Application of Sanitary and Phytosanitary Measures SPS Agreement asking whether it strikes an appropriate balance between conflicting domestic health protection and trade liberalization objectives It pays particular attention to situations likely to occur but not yet fully examined either in the literature or in WTO law most importantly where public opinion demands regulation in the face of scientific uncertainty as to the existence or otherwise of a health risk Tracey Epps concludes that the SPS Agreement s science based framework is capable of dealing with the differing objectives of health and trade and that it provides countries with more flexibility to respond to scientific uncertainties and public sentiment than many critics contend This conclusion is strongly influenced by a positive analysis of domestic regulatory decision making which finds potential for regulatory capture by domestic protectionist interests and thus emphasizes the importance of ensuring that decisions are made on a sound and principled basis Including a historical overview of disputes over trade and health since the 1800s this book provides a comprehensive analysis of and new perspective on an important area of intersection between international trade law and domestic policy It will be of interest to a wide ranging audience including legal and non legal academics policy makers and analysts in the field of risk regulation trade law practitioners in governments and lawyers and analysts in international institutions

**The Secret Financial Life of Food** Kara Newman, 2014-10-21 One morning while reading Barron s Kara Newman took note of a casual bit of advice offered by famed commodities trader Jim Rogers Buy breakfast he

told investors referring to the increasing value of pork belly and frozen orange juice futures The statement inspired Newman to take a closer look at agricultural commodities from the iconic pork belly to the obscure peppercorn and nutmeg The results of her investigation recorded in this fascinating history show how contracts listed on the Chicago Mercantile Exchange can read like a menu and how market behavior can dictate global economic and culinary practice The Secret Financial Life of Food reveals the economic pathways that connect food to consumer unlocking the mysteries behind culinary trends grocery pricing and restaurant dining Newman travels back to the markets of ancient Rome and medieval Europe where vendors first distinguished between spot sales and sales for delivery She retraces the storied spice routes of Asia and recounts the spice craze that prompted Christopher Columbus's journey to North America linking these developments to modern day India's bustling peppercorn market Newman centers her history on the transformation of corn into a ubiquitous commodity and uses oats wheat and rye to recast America's westward expansion and the Industrial Revolution She discusses the effects of such mega corporations as Starbucks and McDonalds on futures markets and considers burgeoning markets particularly super soybeans which could scramble the landscape of food finance The ingredients of American power and culture and the making of the modern world can be found in the history of food commodities exchange and Newman connects this unconventional story to the how and why of what we eat

**Eating Anxiety** Chad Lavin, 2013-04-07 Debates about obesity are really about the meaning of responsibility The trend toward local foods reflects the changing nature of space due to new communication technologies Vegetarian theory capitalizes on biotechnology's challenge to the meaning of species And food politics as this book makes powerfully clear is actually about the political anxieties surrounding globalization In Eating Anxiety Chad Lavin argues that our culture's obsession with diet obesity meat and local foods enacts ideological and biopolitical responses to perceived threats to both individual and national sovereignty Using the occasion of eating to examine assumptions about identity objectivity and sovereignty that underwrite so much political order Lavin explains how food functions to help structure popular and philosophical understandings of the world and the place of humans within it He introduces the concept of digestive subjectivity and shows how this offers valuable resources for rethinking cherished political ideals surrounding knowledge democracy and power Exploring discourses of food politics Eating Anxiety links the concerns of food especially

issues of sustainability public health and inequality to the evolution of the world order and the possibilities for democratic rule It forces us to question the significance of consumerist politics and simultaneously the relationship between politics and ethics public and private      **American Globalization, 1492-1850** Bartolomé Yun-Casalilla, Ilaria Berti, Omar Svriz-Wucherer, 2021-06-28 Following a study on the world flows of American products during early globalization here the authors examine the reverse process By analyzing the imperial political economy the introduction adaptation and rejection of new food products in America as well as of other European Asian and African goods American Globalization 1492 1850 addresses the history of consumerism and material culture in the New World while also considering the perspective of the history of ecological globalization This book shows how these changes triggered the formation of mixed imagined communities as well as of local and regional markets that gradually became part of a global economy But it also highlights how these forces produced a multifaceted landscape full of contrasts and recognizes the plurality of the actors involved in cultural transfers in which trade persuasion and violence were entwined The result is a model of the rise of consumerism that is very different from the ones normally used to understand the European cases as well as a more nuanced vision of the effects of ecological imperialism which was moreover the base for the development of unsustainable capitalism still present today in Latin America Chapters 1 3 4 7 8 11 and 13 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license available at <http://www.taylorfrancis.com>

**The Insect Cookbook** Arnold van Huis, Henk van Gurp, Marcel Dicke, 2014-03-04 The Definitive Guide to Insects as a Sustainable Food Source In The Insect Cookbook two entomologists and a chef make the case for insects as a sustainable source of protein for humans and a necessary part of our future diet They provide consumers and chefs with the essential facts about insects for culinary use with recipes simple enough to make at home yet boasting the international flair of the world s most chic dishes Invite politicians to dinner and let them tell the world how delicious it is They will proudly go around and say I ate crickets I ate locusts and they were delicious Kofi Annan The Insect Cookbook features delicious recipes and interviews with top chefs insect farmers political figures and nutrition experts including chef Ren Redzepi whose establishment was elected three times as best restaurant of the world Kofi Annan former secretary general of the United Nations and Daniella Martin of Girl Meets Bug The book contains all you need to know about cooking with insects where to buy them which ones are edible and how to store and prepare them at home and in commercial spaces      **Umami** Ole Mouritsen, Klavs Styrbæk, 2014-06-03 In the West we have identified only four basic tastes sour sweet salty and bitter that through skillful combination and technique create delicious foods Yet in many parts of East Asia over the past century an additional flavor has entered the culinary lexicon umami a fifth taste impression that is savory complex and wholly distinct Combining culinary history with recent research into the chemistry preparation nutrition and culture of food Mouritsen and Styrbæk encapsulate what we know to date about the concept of umami from ancient times to today Umami can be found in

soup stocks meat dishes air dried ham shellfish aged cheeses mushrooms and ripe tomatoes and it can enhance other taste substances to produce a transformative gustatory experience Researchers have also discovered which substances in foodstuffs bring out umami a breakthrough that allows any casual cook to prepare delicious and more nutritious meals with less fat salt and sugar The implications of harnessing umami are both sensuous and social enabling us to become more intimate with the subtleties of human taste while making better food choices for ourselves and our families This volume the product of an ongoing collaboration between a chef and a scientist won the Danish national Mad Medier Prisen Food and Media Award in the category of academic food communication

**Pomodoro!** David Gentilcore, 2010 Frankly I am amazed

that no one has already written this book It is a fascinating topic and David Gentilcore does it justice covering five hundred years in scrutinizing detail There is probably no food so readily associated with Italy than the tomato and yet its origin is in the Americas KEN ALBALA University of the Pacific author of *Beans A History*

**Meals Matter** Michael

Symons, 2020-06-02 Until the early nineteenth century political philosophy and economics were dining companions Both took up fundamental questions of how we should feed one another But with the rise of corporate capitalism modern economics lost sight of its primary task and turned away from the complexities of real people's sustenance in favor of the single minded pursuit of money In *Meals Matter* Michael Symons returns economics to its roots in the distribution of food and the labor required Setting the table with vivid descriptions of conviviality he offers a gastronomic rebuttal to the narrow worldview of mainstream economics Engaging with a wide variety of thinkers including Epicurus Enlightenment philosophers such as Thomas Hobbes and John Locke the gastronome Jean Anthelme Brillat Savarin and economic theorists from François Quesnay and Adam Smith through the neoliberals Symons traces how we went astray and how we can find our way back to a more caring sustainable way of life He finds hope for shared table pleasure in institutions like community gardens street markets and banquets and in eating fresh local and slow food An innovative historically based argument at the intersection of food history and social thought *Meals Matter* challenges us to reject the economics of greed in favor of a community based economics of sharing and gastronomic enjoyment

**Italy and the Potato: A History, 1550-2000** David

Gentilcore, 2012-02-02 Italy like the rest of Europe owes a lot to the Columbian exchange As a result of this process in addition to potatoes Europe acquired maize tomatoes and most types of beans All are basic elements of European diet and cookery today The international importance of the potato today as the world's most cultivated vegetable highlights its place in the Columbian exchange While the history of the potato in the United States Ireland Britain and other parts of northern Europe is quite well known little is known about the slow rise and eventual fall of the potato in Italy This book aims to fill that gap arguing why the potato's Italian history is important It is both a social and cultural history of the potato in Italy and a history of agriculture in marginal areas David Gentilcore examines the developing presence of the potato in elite and peasant culture its place in the difficult mountain environment in family recipe notebooks and kitchen accounts in travellers

descriptions agronomical treatises cookery books and in Italian literature      **Offal: Rejected and Reclaimed Food** Mark McWilliams,2017-06-30 Contains the proceedings from the 2016 Oxford Symposium on Food Cookery focusing on offal

*Food in Time and Place* Paul Freedman,Joyce E. Chaplin,Ken Albala,2014-11-24 Food and cuisine are important subjects for historians across many areas of study Food after all is one of the most basic human needs and a foundational part of social and cultural histories Such topics as famines food supply nutrition and public health are addressed by historians specializing in every era and every nation Food in Time and Place delivers an unprecedented review of the state of historical research on food endorsed by the American Historical Association providing readers with a geographically chronologically and topically broad understanding of food cultures from ancient Mediterranean and medieval societies to France and its domination of haute cuisine Teachers students and scholars in food history will appreciate coverage of different thematic concerns such as transfers of crops conquest colonization immigration and modern forms of globalization      **Food Lit**
