**Being and Ambiguity** Brook Ziporyn, 2015-10-28 Being and Ambiguity is a brilliant work of philosophy filled with insights jokes and topical examples Professor Ziporyn draws on the works of such Western thinkers as Wittgenstein Nietzsche Freud Sartre and Hegel but develops his main argument from Tiantai school of Chinese Buddhism This important work introduces Tiantai Buddhism to the reader and demonstrates its relevance to profound philosophical issues Ziporyn argues that we can make both of the claims below simultaneously This book is about everything It contains the answers to all philosophical problems which ever shall exist This book is all claptrap It is completely devoid of objective validity of any kind These claims are not contradictory Rather they state the same thing in two different ways To be objective truth is to be subjective claptrap and vice versa All interchanges of any kind conversations daydreams sensations are not only about something but also about everything Thus this book concerns itself with no less than the nature of what is and what it means for something to be what it is It provides a new approach to the basic Western philosophical and psychological issues of identity determinacy being desire boredom addiction love and truth This is Not Just a Painting

Bernard Lahire, 2019-04-15 In 2008 the Musée des Beaux Arts de Lyon acquired a painting called The Flight into Egypt which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been

sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Musée des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art

**Mine!** Michael A. Heller, James Salzman, 2022-02-15 Mine is one of the first words babies learn and by the time we grow up the idea of ownership seems natural whether we are buying a cup of coffee or a house But who controls the space behind your airplane seat you reclining or the squished laptop user behind you Why is plagiarism wrong but it's okay to knock off a recipe or a dress design And after a snowstorm why does a chair in the street hold your parking space in Chicago while in New York you lose both the space and the chair In Mine Michael Heller and James Salzman two of the world's leading authorities on ownership explain these puzzles and many more Remarkably they reveal there are just six simple rules that everyone uses to claim everything Owners choose the rule that steers us to do what they want But we can pick differently This is true not just for airplane seats but also for battles over digital privacy climate change and wealth inequality Mine draws on mind bending often infuriating and always fascinating accounts from business history courtrooms and everyday life to reveal how the rules of ownership control our lives and shape our world

**Epistemic Ambivalence** Daniel Medeiros de Freitas, Carolina Maria Soares Lima, Krzysztof Nawratek, Bernardo Miranda Pataro, 2023-07-28 This book delves into the complex relationship between religious imaginaries and the perception of space among followers of Candomblé and Pentecostal churches in Belo Horizonte Brazil's third largest urban agglomeration It adopts a dual perspective examining the broader political economic and social dimensions of these religious communities urbanisation and spatial distribution and

their members individual beliefs and behaviours Through this approach the book aims to provide a nuanced and insider s view of these religious positions challenging our preconceived notions of urban spaces and contributing to the larger discussion of decolonial urban theory and spatialised post secular thought This transdisciplinary book will appeal to a broad range of researchers particularly those interested in urban and religious studies Its strong spatial perspective makes it attractive to architects and urban designers It will be of interest to those in human geography urban planning design architecture political science religious studies and culture studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4 0 license

*Artificial Intelligence* Ronald Chrisley,Sander Begeer,2000 *Intensive Culture* Scott Lash,2010-06-14 Contemporary culture today s capitalism our global information society is ever expanding is ever more extensive And yet we seem to be experiencing a parallel phenomenon which can only be characterised as intensive This thought provoking innovative book is dedicated to the study of such intensive culture Whilst extensive culture is a culture of the same a culture of fixed equivalence intensive culture is a

culture of difference of in equivalence the singular Intensities generate what we encounter They are virtuals or possibilities always in process and always in movement We thus live in a culture that is both extensive and intensive Indeed the more globally stretched and extensive social relations become the more they simultaneously seem to take on this intensity Ours is a relational world where each intensity whether human technological or biological provides a distinct specific window onto the whole Lash tracks the emergence and pervasion of this intensive culture in society religion philosophy language communications politics and the neo liberal economy itself In so doing he redefines the work of Leibniz Benjamin Simmel and Durkheim and initiates the reader into the ontological structures of our contemporary social relations In the pursuit of intensive culture the reader is taken on an excursion from Karl Marx's Capital to the information theology in the science fiction of Philip K Dick Diverse engaging and rich in detail the resulting book will be of interest to all those studying social and cultural theory sociology media and communication and cultural studies     World Scriptures Kenneth Kramer,1986
