Warms,2019-01-09 Cultural Anthropology integrates critical thinking explores rich ethnographies and prompts students to skillfully explore and study today s world Readers will better understand social structures by examining themselves their culture and cultures from all over the globe Serena Nanda and Richard L Warms show how the analytical understandings and tools derived from over a century of systematically collecting data and thinking about culture can help students analyze understand and act effectively in the world With a practical emphasis on areas such as medicine forensics development and advocacy this book takes an applied approach to anthropology The authors cover a broad range of theories both historical and contemporary without any insistence on any particular approach and balance it with applied contemporary real world global issues The new Twelfth Edition includes a wealth of new examples and over 500 references that update ethnographic examples statistical information and theoretical approaches **Tibetan Buddhism among Han Chinese** Joshua Esler,2020-05-28 This study analyzes the growing appeal of Tibetan Buddhism among Han Chinese in contemporary China Hong Kong and Taiwan It examines the Tibetan tradition s historical context and its social cultural and political adaptation to Chinese society as well as the effects on Han practitioners The author s analysis is based on fieldwork in all three locations and includes a broad range of interlocutors such as Tibetan religious teachers Han practitioners and lay Tibetans *Literature, Performance, and Somaesthetics* Katarzyna Lisowska,Jarosław Woźniak,2017-05-11 Literature Performance and Somaesthetics views textual and extra textual worlds as intimately connected as forming a continuum in fact The essays on literature philosophy and the arts gathered here derive their theoretical inspirations from two realms where embodiment and agency are particularly stressed namely from philosophical somaesthetics a discipline proposed by Richard Shusterman in 1999 and from performance studies remarkable for its current expansion In most general terms the point of convergence for somaesthetics and performativity is their stressing the agency of the embodied and sentient human self The contributors explore the question of agency in its various manifestations They examine the construction of literary characters with emphasis on the representation of their corporeality and affectivity They look into the problem of the formation of the literary canon as enacted rather than established and into literary history as retold rather than rewritten They also focus on the problems of literary reception considering it on the physical visceral level While showing keen interest

in performance studies and somaesthetics the authors also bring in the expertise gained in their primary fields of research Hence the ideas explored in their essays are drawn from philosophy literary theory cultural studies psychology and hard science The essays here are concerned with a variety of generic forms epic literature lyrical poetry tragedy experimental novel thriller literary history theological treatise documentary flamenco and opera in order to outline the field in the humanities where literature philosophy and performance can meet and where literary studies can benefit from the approaches offered by performance studies and philosophical somaesthetics
