Sacrifice Of Isaac:

The Sacrifice of Isaac Ed Noort, Tigchelaar, 2021-08-04 The central theme of the papers read at the conference about the Aqedah is the history of reception of Genesis 22 The Sacrifice of Isaac After observations related to the biblical text and human sacrifice in Ancient Israel the sacrifice of Iphigeneia is studied followed by papers about the reception of the Aqedah in Qumran in Jubilees in Rabbinical and in Christian Syriac traditions finally in a recently published poem in the Bodmer papyri and in the Koran Important contributions are made by the history of art Two essays in this volume study the older iconography and the Aqedah in Italian art The reception in modern times Kierkegaard a gender motivated and a psychoanalytical reading can be found in the last part of the volume The studies published in this volume bring surprising and oft neglected aspects of the famous narrative to light How in different times and in different circles Genesis 22 has been interpreted is an encouragement for hermeneutical reflection and a help for exegesis itself *Bound by the Bible : Jews, Christians, and the sacrifice of Isaac* Edward Kessler, 2004 **Holy Murder** Larry Powell, William R. Wellisch, 2013-10-08 This is Volume V of six in the Psychology and Religion series First published in 1954 this is a religious psychological study of the father son relationship It represents a re evaluation of the Oedipus Complex and is based on the exposition of the twenty second chapter of Genesis the Sacrifice of Isaac The thesis of the study is that phenomena described in the Bible provide a unique contribution to psychological truth **The Curse of Eve, the Wound of the Hero** Peggy McCracken, 2010-11-24 In *The Curse of Eve the Wound of the Hero* Peggy McCracken explores the role of blood symbolism in establishing and maintaining the sex gender systems of medieval culture Reading a variety of literary texts in relation to historical medical and religious discourses about blood and in the context of anthropological and religious studies McCracken offers a provocative examination of the ways gendered cultural values were

mapped onto blood in the Middle Ages As McCracken demonstrates blood is gendered when that of men is prized in stories about battle and that of women is excluded from the public arena in which social and political hierarchies are contested and defined through chivalric contest In her examination of the conceptualization of familial relationships she uncovers the privileges that are grounded in gendered definitions of blood relationships She shows that in narratives about sacrifice a father's relationship to his son is described as a shared blood whereas texts about women accused of giving birth to monstrous children define the mother's contribution to conception in terms of corrupted often menstrual blood Turning to fictional representations of bloody martyrdom and of eucharistic ritual McCracken juxtaposes the blood of the wounded guardian of the grail with that of Christ and suggests that the blood from the grail king's wound is characterized in opposition to that of women and Jewish men Drawing on a range of French and other literary texts McCracken shows how the dominant ideas about blood in medieval culture point to ways of seeing modern values associated with blood in a new light and how modern representations in turn suggest new perspectives on medieval perceptions
