**The Heir of Kilfinnan: A Tale of the Shore and Ocean** William Henry Giles

Kingston,2007-01-01 The west coast of Ireland presents scenery of the most beautiful and romantic character Here grey peaks rise up amidst verdure of emerald green trees of varied hue come feathering down close to the water yellow sands line the shores of many lonely bays dark rocks of fantastic shape extend out into the ocean while deep blue lochs mirror on their bosoms the varied forms of the surrounding heights On the south west part of the coast a wide bay is to be found At the extreme southern end up a deep loch a castle the seat of an ancient family reared its towers high above the waters The bay came sweeping round at some places with a hard sandy beach then again the ground rose leaving but a narrow ledge between the foot of the cliffs and the waters Thus the shore extended on for some distance forming a lofty headland when it again sank to its former level A reef of rocks ran out a considerable distance into the ocean forming a natural breakwater to the bay Here and there to the north were several deep indentations in which fishing boats and several coasting craft might find shelter In some of these little bays fishermen had formed their habitations mostly out of the wrecks of stout ships which had been cast on their rocky shores In some of the coves or bays several huts had been congregated together but a short distance north of the promontory which has been spoken of stood a single hut It was strongly built of ships timbers and roofed with stout planks kept down by heavy stones so that though the furious blasts which swept across the Atlantic blew against it it had hitherto withstood the rough shocks to which it had been exposed **Essex Institute Historical**
