War as Risk Management Yee-Kuang Heng,2006-04-18 This major new study shows how war can be thought of in terms of proactive risk management rather than in terms of conventional threat response It addresses why the study of risk management has helped fields such as sociology and criminology conceptualize new policy challenges but has made limited impact on Strategic Studies with new case studies of recent Anglo American military campaigns in Kosovo Afghanistan and Iraq The author shows how risk is now a key defining feature of our globalized

Iraq David Little, 2003 The publication of this collection of essays on the current crisis concerning Iraq will not be welcomed by the United States government Although the authors a group of German and American scholars who are moral theologians policy analysts political scientists and a Middle East historian write from divergent backgrounds and perspectives all finally concur sometimes for different reasons in rejecting the arguments of the Bush administration in favor of unilateral US military action against Iraq These essays are uniformly free of the intemperate language and careless argumentation that characterizes some of the opposition to American policy inside and outside the United States and is therefore easy to dismiss Whether the authors address either the threat Saddam Hussein represents to his region and the world or the prospects for alternative strategies the reasoning is generally well informed sensitive to complexity and attentive to detail The book will help to confirm and strengthen the growing thoughtful opposition in the United States and abroad to the Bush policies and as such deserves to be taken very seriously

Is Military Action Justified Against Nations that Support Terrorism? James D. Torr, 2003 Perhaps the most controversial issue surrounding terrorism is how governments should respond to it The viewpoints in this volume discuss the United States military intervention in Afghanistan the Bush administration's case against Iraq and the broader ethical issues involved in using military force to deter terrorism
