Saddle Soldiers:

United States Military Saddles, 1812-1943, 1988-09-01 A large part of American history was written from the seat of a military saddle While the United States Army used horse mounted fighting men from the very beginning it was in the nineteenth century from the decade before the Mexican War through the Indian wars that the dashing cavalry units captured the American imagination The horse soldiers remained part of the army until 1943 when the military converted them to mechanized forces Even so West Point did not tear down its stables and abandon its riding proficiency requirement until 1947 The long retention of the cavalry was due to affection for the memory of the glorious role of the cavalry in American military history Sons of Privilege W. Eric Emerson, 2005 W Eric Emerson traces the wartime experiences of the Charleston Light Dragoons a unique Confederate cavalry company drawn together from South Carolina's most prestigious families of planters merchants and politicians and examines the military exploits of this company of gentlemen to find that the elite status of its membership dictated the terms of service *South Carolina's Military Organizations During the War Between the States: The lowcountry & Pee Dee* Robert S.
