The Universal Kabbalah Leonora Leet,2004-09-29 Presents a new understanding of the laws of cosmic manifestation through the sacred geometry of the Sabbath Star diagram Explores three higher levels of consciousness above the four worlds of the classical Kabbalah Reveals the mathematical code of the laws of all cosmic manifestation This landmark work by an innovative modern Kabbalist develops a scientific model for kabbalistic cosmology and soul psychology derived from the kabbalistic diagram of the Tree of Life and the author s own Sabbath Star diagram a configuration of seven Star of David hexagrams This geometric model begins with the four worlds of the classical Kabbalah which bring us to the present time and birthright level of the soul and is then expanded to three higher enclosing worlds or levels of evolving consciousness The Sabbath Star diagram therefore accommodates both the emanationist cosmology of the earlier Zoharic Kabbalah and the future orientation of the later Kabbalah of Isaac Luria The hexagram elements that construct each expansion of the Sabbath Star diagram configure the cosmic stages of each of its worlds The matrix that is produced by these construction elements configures the level of the multi dimensional soul that is correlated with each cosmic world In its final stage this model unites the finite and infinite halves of the Sabbatical world in a way that exemplifies the secret doctrine of the Kabbalah Not only does this work offer a new inclusive model for the Kabbalah but it also provides a basis for complexity theory with its final extrapolation to infinity The universality of this model is further shown by its applicability to such other domains as physics sociology linguistics and human history This universal model encodes the laws of all cosmic manifestation in terms that are particularly coherent with the formulations of the Kabbalah giving a mathematical basis to many aspects of this mystical tradition and providing a new synthesis of science and spirituality for our time that may well write a new chapter to the Kabbalah

CHROMATIC CONCORDAT: Gray Rising Lucky

Noma,2025-02-21 The first thing Havayah ever saw was gray Not the gray of clouds or ash or dusk but the kind that eats at the edges of everything Born silent in a Dominion where colors sing burn heal and kill the world called her a void Her village called her cursed And Havayah She called herself no one a hollow But a hollow is a dangerous thing to underestimate When the Ma or Council brands her a threat for lacking Chromatic attunement the sacred bond to color that defines life an empathic investigator named Nefesh makes a choice to protect her instead of condemning her Together they uncover the Council s devastating plan to use the shattered Prismatic Nexus remnants of the world s raw luminance to achieve absolute control over the color spectrums while casting out those they deem colorless The rebels fighting against them promise liberation but their revolution holds its own darkness What no one realizes is that the girl they dismissed the one born without a single thread of color has no intention of playing savior Through underwater cities and skies stained with power Havayah will forge her own path Because when the world gave her nothing she learned to take everything This is not a story of saving the world
