ensue when competing narratives clash and examines the nature of resistance to dominant narratives which arise It considers the problems in a wide range of countries in the region including Indonesia Malaysia Singapore Hong Kong Korea Australia and New Zealand *A Democratic Architecture for the Welfare State* Victor A. Pestoff,2008-10-27 The welfare state faces various challenges in Scandinavia and many European countries today including a poor work environment in the public sector a growing democracy deficit and demographic obstacles In this new book Victor A Pestoff argues that the state cannot resolve these challenges alone or together with the market rather it requires the active participation of citizens and the third sector in order to overcome them and become more sustainable and flexible in the future This book addresses the need for a more democratic architecture for the European welfare state opening new perspectives for developing alternative channels for direct citizen participation at the sub municipal level of governance Pestoff finds that neither democratic theory nor welfare state theory devotes adequate attention to the contemporary role of the third sector as a service provider or to greater direct citizen participation in the provision of welfare services He shifts the focus of analysis from the input to the output side of the political system and explores new ways to promote a greater role for the third sector and more citizen participation in the provision of universal tax financed welfare services Part 1 discusses social economy actors in Sweden and Scandinavia both from a historical and future perspective Part 2 explores major issues for the third sector and welfare state including the allocation of an organization s surplus or profit work environment and service quality in public services and the third sector consumer perspectives on the social economy democratizing medical and health care in Japan and co production of childcare services in eight European countries Part 3 revisits the third sector and state in democratic theory and welfare theory as well as recognizing major hurdles to the third sector and democratization of the welfare state Part 4 concludes by summarizing the politics of participation in the welfare state **Public Administration Singapore-Style** Jon S. three case narratives Its rationale is to address this gap in the literature from a governance theory perspective that focuses on state adaptation to the external environment and new forms of coordination and collaboration between government and civil society to tackle new societal problems The application of the governance theory approach to specific case studies is itself a topic that deserves much greater study than what it has so far received **Ageing in Singapore** Peggy Teo,Kalyani Mehta,Leng Leng Thang,Angelique Chan,2006-09-27 Providing original critical discourse from Asian writers recording Asian voices this fascinating text is an invaluable resource giving an in depth analysis of the experience of ageing in Singapore
