Lion City Narratives: Singapore Through Western Eyes Victor R Savage,2021-11-18 *Lion City Narratives Singapore Through Western Eyes* fulfils four aims First it is a study of subjective Western impressions of Singapore s 145 years 1819 1963 of colonial history The study is not meant to be an in depth historical analysis of Singapore but rather to give the reader an impressionistic account of how Western residents viewed Singapore over the decades Second this study could be seen as a short biography of Singapore s evolution as a city The chapters on the imageability of Singapore and its urban morphology provide a holistic perspective of Singapore s urban dynamics Third this book provides a cultural insight into Singapore s population both White residents and transient visitors as well as the locals or Asians Fourth it opens a window into Singapore

s development at a time when the West was at its cultural zenith and when Great Britain was the principal superpower of the 19th century Hence Singapore carried twin colonial legacies it was the archetype trading emporium between East and West and it became for the British the major point d appui for defence Finally the Singapore colonial narrative is set in a broader academic discourse that allows the reader to see a wider picture of Singapore s colonial development The book does not attempt to make a definitive statement about the Western involvement in Singapore it deals more with an association of many subjective Western perspectives that add colour to the liveability of the tropics perceptions of the exotic Orient and the myriad views of ethnic groups Without the Western writings paintings and maps academia would have minimal records of Singapore s development As a new colony in the early 19th century however Singapore s growth has been extremely well documented This book will appeal to Singaporeans interested in understanding Singapore s colonial past Westerners interested in the Western cultural persona in the development of Singapore researchers dealing with the urban development of less developed countries and colonial development in the tropical world and lastly academics who are interested in Singapore and the region s political and economic development as a case study
