Shakespearean Variations:

Themes and Variations in Shakespeare's Sonnets J B Leishman, 2013-04-15 First published in 1961 This study analyses Shakespeare's treatment of the universal themes of Beauty Love and Time He compares Shakespeare with other great poets and sonnet writers Pindar Horace and Ovid with Petrarch Tasso and Ronsart with Shakespeare's own English predecessors and contemporaries notably Spenser Daniel and Drayton and with John Donne By discussing their resemblances and differences a not altogether orthodox picture of Shakespeare's attitude to life is presented which suggests that he was not as phlegmatic and equable a person as critics have often supposed

Linguistic Variation in the Shakespeare Corpus Ulrich Busse, 2002-11-29 This study investigates the morpho syntactic variability of the second person pronouns in the Shakespeare Corpus seeking to elucidate the factors that underlie their choice The major part of the work is devoted to analyzing the variation between you and thou but it also includes chapters that deal with the variation between thy and thine and between ye and you Methodologically the study makes use of descriptive statistics but incorporates both quantitative and qualitative features drawing in particular on research methods recently developed within the fields of corpus linguistics socio historical linguistics and historical pragmatics By making comparisons to other corpora on Early Modern English the work does not only contribute to Shakespeare studies but on a broader scale also to language change by providing new and more detailed insights into the mechanisms that have led to a restructuring of the pronoun paradigm in the Early Modern period

Shakespeare and the Classical Tradition Lewis Walker, 2019-05-24 This bibliography will give comprehensive coverage to published commentary in English on Shakespeare and the Classical Tradition during the period from 1961 1985 Doctoral dissertations will also be included Each entry will provide a clear and detailed summary of an item's contents For pomes and plays based directly on classical sources like Antony and Cleopatra and The Rape of Lucrece virtually all significant scholarly work during the period covered will be annotated For other works such as Hamlet any scholarship that deals with classical connotations will be annotated Any other bibliographies used in the compiling of this volume will be described with emphasis on their value to a student of Shakespeare and the Classics

The Shakespeare Claimants H. N Gibson, 2013-11-05 This edition first published in 1962 The Shakespeare Claimants is a critical survey of the great controversy that has raged over the authorship of the Shakespearean plays It provides the general reader with an outline history of this controversy and with a full description and analysis of the main anti Stratfordian arguments This book concentrates on the four main claimants Bacon Oxford Derby and Marlowe The book contains an extensive bibliography and footnotes to guide the reader through the text

The Shakespeare Wars Ron Rosenbaum, 2011-11-09 Ron Rosenbaum is one of the most original journalists and writers of our time David Remnick In The Shakespeare Wars Ron Rosenbaum gives readers an unforgettable way of rethinking the greatest works of the human imagination As he did in his groundbreaking Explaining Hitler he shakes up much that we thought we understood about a vital subject and renews our sense of excitement and urgency He gives us a

Shakespeare book like no other Rather than raking over worn out fragments of biography Rosenbaum focuses on cutting edge controversies about the true source of Shakespeare's enchantment and illumination the astonishing language itself How best to unlock the secrets of its spell With quicksilver wit and provocative insight Rosenbaum takes readers into the midst of fierce battles among the most brilliant Shakespearean scholars and directors over just how to delve deeper into the Shakespearean experience deeper into the mind of Shakespeare Was Shakespeare the one draft wonder of Shakespeare in Love Or was he rather as an embattled faction of textual scholars now argues a different kind of writer entirely a conscientious reviser of his greatest plays Must we then revise our way of reading staging and interpreting such works as Hamlet and King Lear Rosenbaum pursues key partisans in these debates from the high tables of Oxford to a Krispy Kreme doughnut shop in a strip mall in the Deep South He makes ostensibly arcane textual scholarship intensely seductive and sometimes even explicitly sexual At an academic Pleasure Seminar in Bermuda for instance he examines one scholar's quest to find an orgasm in Romeo and Juliet Rosenbaum shows us great directors as Shakespearean scholars in their own right We hear Peter Brook perhaps the most influential Shakespearean director of the past century disclose his quest for a secret play hidden within the Bard's comedies and dramas We listen to Sir Peter Hall founder of the Royal Shakespeare Company as he launches into an impassioned table pounding fury while discussing how the means of unleashing the full intensity of Shakespeare's language has been lost and how to restore it Rosenbaum's hilarious inside account of the Great Shakespeare Funeral Elegy Fiasco a man versus computer clash illustrates the iconic struggle to define what is and isn't Shakespearean And he demonstrates the way Shakespearean scholars such as Harold Bloom can become great Shakespearean characters in their own right The Shakespeare Wars offers a thrilling opportunity to engage with Shakespeare's work at its deepest levels Like Explaining Hitler this book is destined to revolutionize the way we think about one of the overwhelming obsessions of our time The Problem of the Pastoral Epistles Percy Neale Harrison,1921 Text of 1 2 Timothy and Titus 16 p at end

The Problem of the Pastoral Epistles P. N. Harrison,2016-07-29 This essay is an attempt to show how the language of the Pastoral Epistles can be used as a key to unlock the old secret of their origin It is not a complete Introduction to these epistles but only a contribution towards that larger subject On the other hand it includes rather more than a series of linguistic studies pure and simple In the matter before us language is only one of several factors which are closely interconnected and refuse to be kept in separate water tight compartments The full significance of each is only seen in its relation to the rest From the preface **Shakespearean Variations** Ralph McInerny,2001 While it will seem the height of arrogance to write variations on Shakespeare's sonnets the attempt induces humility and an even deeper regard for the bard of Avon In Shakespearean Variations Ralph McInerny takes the first lines of the sonnets and their end rhymes and composes sonnets of his own The formal structure of the sonnet has always provided a salutary discipline for the poet iambic pentameter the delicate symmetry of octet and sextet the closing couplet which epitomizes the poem The stamp that

Shakespeare put upon the form the themes of love and death age and youth loyalty and betrayal have come to seem to adhere to the very form The pleasure to be had from reading Shakespearean Variations will vary with one's acquaintance with the originals but should always turn one to the bard himself

Shakespearean Language Leslie O'Dell, 2001-10-30 Shakespeare was a master of language his sayings have become part of everyday speech and his plays endure in part because of the beauty of his verse Shakespeare's language however poses special difficulties for modern actors because many of his words seem unusual or difficult to pronounce he employs rhetorical devices throughout his works and he carefully uses rhythm to convey sense The relation of the modern actor to the Shakespearean text the importance of understanding the nuances of his language and the fundamentals of grammar are all thoroughly examined in this volume Its heart is a detailed consideration of the iambic code the metrical system that Shakespeare used to give so much power to his verse O'Dell also examines the importance of formal rhetoric in Elizabethan England and Shakespeare's artful use of rhetorical devices in his plays As a practical reference guide this volume
