Shakespeare's Use of the Arts of Language Sister Miriam Joseph, 2008-09 Grammar school students in Shakespeare's time were taught to recognise the two hundred figures of speech that Renaissance scholars had derived from Latin and Greek sources from amphibologia through onomatopoeia to zeugma This knowledge was one element in their thorough grounding in the liberal arts of logic grammar and rhetoric known as the trivium In Shakespeare's Use of the Arts of Language Sister Miriam Joseph writes The extraordinary power vitality and richness of Shakespeare's language are due in part to his genius in part to the fact that the unsettled linguistic forms of his age promoted to an unusual degree the spirit of creativeness and in part to the theory of composition then prevailing The purpose of this study is to present to the modern reader the general theory of composition current in Shakespeare's England The author then lays out those figures of speech in simple understandable patterns and explains each one with examples from Shakespeare Her analysis of his plays and poems illustrates that the Bard knew more about rhetoric than perhaps anyone else Originally published in 1947 this book is a classic
