**Jeremy Sampson**

## **Shakespeare's Theater Of Likeness:**

**Shakespeare's Theater of Likeness** Richard Allen Shoaf, 2006 Shoaf shows that Shakespeare's theater is also Shakespeare's theory of the psychology of likeness and unlikeness in the human striving for the most elusive and allusive of all attainments an individual identity

**Lucretius and Shakespeare on the Nature of Things** Richard Allen Shoaf, 2014-10-16 Lucretius and Shakespeare on the Nature of Things maps large new vistas for understanding the relationship between De rerum natura and Shakespeare's works In chapters on six important plays across the canon King Lear Macbeth Hamlet The Merchant of Venice The Tempest and A Midsummer Night's Dream it demonstrates that Shakespeare articulates his erotics of being his great creating nature The Winter's Tale by drawing on imagery he learned from Ovid and other classical poets but especially from Lucretius in his powerful epic that celebrates Venus and her endless creativity Responding to Lucretius's widely admired Latinity in his exposition of the life of man in nature Shakespeare emerges as an early modern materialist who writes poetry that is effectively atomic marked as we might say today by fission hendiadys for example and fusion synoeciosis for example joining and splitting splitting and joining language and character as no other poet has ever done To give away yourself keeps yourself still My grave is like to be my wedding bed I begin To doubt the equivocation of the fiend That lies like truth Readers of Shoaf's book will encounter anew through both fresh evidence and close reading Shakespeare's universally acknowledged commitment to the art of nature and the nature of art With Lucretius's poetry as inspiration Shakespeare becomes the poet of the material both in art and in nature immensely creative with his *d dala lingua* like *d dala natura* his wonder crafting tongue like wonder working nature

*Shakespeare, Rhetoric and Cognition* Raphael Lyne, 2011-09-01 Raphael Lyne addresses a crucial Shakespearean question why do characters in the grip of emotional crises deliver such extraordinarily beautiful and ambitious speeches How

do they manage to be so inventive when they are perplexed Their dense complex articulate speeches at intensely dramatic moments are often seen as psychological they uncover and investigate inwardness character and motivation and as rhetorical they involve heightened language deploying recognisable techniques Focusing on A Midsummer Night's Dream Othello Cymbeline and the Sonnets Lyne explores both the psychological and rhetorical elements of Shakespeare's language In the light of cognitive linguistics and cognitive literary theory he shows how Renaissance rhetoric could be considered a kind of cognitive science an attempt to map out the patterns of thinking His study reveals how Shakespeare's metaphors and similes work to think interpret and resolve and how their struggle to do so results in extraordinary poetry **The Shakespearean**

**International Yearbook** David Schalkwyk, 2017-05-15 This eighth volume of The Shakespearean International Yearbook presents a special section on European Shakespeares proceeding from the claim that Shakespeare's literary craft was not just native English or British but was filtered and fashioned through a Renaissance awareness that needs to be recognized as European and that has had effects and afterlives across the Continent Guest editors Ton Hoenselaars and Clara Calvo have constructed this section to highlight both how the spread of Shakespeare throughout Europe has brought together the energies of a wide variety of European cultures across several centuries and how the inclusion of Shakespeare in European culture has been not only a European but also a world affair The Shakespearean International Yearbook continues to provide an annual survey of important issues and developments in contemporary Shakespeare studies Contributors to this issue come from the US and the UK Spain Switzerland and South Africa Canada The Netherlands India Portugal Greece France and Hungary In addition to the section on European Shakespeares this volume includes essays on the genre of romance issues of character and other topics Being Played: Gadamer and Philosophy's Hidden Dynamic Jeremy Sampson, 2019-09-02

Are we being played Is our understanding of the traditionally fixed and static concepts of philosophy based on an oversimplification This book explores some of the theories of the self since Descartes together with the rationalism and the empiricism that sustain these ideas and draws some startling conclusions using Gadamer's philosophical study of play as its starting point Gadamer's ludic theory Sampson argues reveals a dynamic of play that exists at the deepest level of philosophy It is this dynamic that could provide a solution in relation to the Gadamer Habermas hermeneutics debate and the Gadamer Derrida relativism debate together with a theory of totality Sampson shows how ludic theory can be a game changer in understanding the relationship between philosophy and literature exploring the dynamic between the fictive and non fictive worlds These worlds are characterized simultaneously by sameness univocity of Being and difference equivocality of Being The book questions Heidegger's idea that the univocity of Being is universal instead maintaining that the relationship between the univocity of Being and equivocality of Being is real and that ontological mediation is required to present them as a unified whole Using the works of Shakespeare Beckett and Wilde Sampson contends that such a mediation termed the ludicity of Being takes place between literature and its audience This literary example has profound implications not only for literature

and its attendant theories but also for philosophy in particular ontology and hermeneutics

**Mythodologies** Joseph A. Dane, 2018 Mythodologies challenges the implied methodology in contemporary studies in the humanities We claim at times that we gather facts or what we will call evidence and from that form hypotheses and conclusions Of course we recognize that the sum total of evidence for any argument is beyond comprehension therefore we construct and we claim preliminary hypotheses perhaps to organize the chaos of evidence or perhaps simply to find it we might then see we claim whether that evidence challenges our tentative hypotheses Ideally we could work this way Yet the history of scholarship and our own practices suggest we do nothing of the kind Rather we work the way we teach our composition students to write choose or construct a thesis then invent the evidence to support it This book has three parts examining such methods and pseudo methods of invention in medieval studies bibliography and editing Part One Noster Chaucer looks at examples in Chaucer studies such as the notion that Chaucer wrote iambic pentameter and the definition of a canon in Chaucer Our Chaucer has it seems little to do with Chaucer himself and in constructing this entity Chaucerians are engaged largely in self validation of their own tradition Part Two Bibliography and Book History consists of three studies in the field of bibliography the recent rise in studies of annotations the implications of presumably neutral terminology in editing a case study in cataloguing Part Three Cacophonies A Bibliographical Rondo is a series of brief studies extending these critiques to other areas in the humanities It seems not to matter what we talk about meter book history the sex life of bonobos In all of these discussions we see the persistence of error the intractability of uncritical assumptions and the dominance of authority over evidence

**Social Dramas** David A. Postles, 2010-11-22 How the repeated social tropes and paradigms of the City comedies give us an in depth look into everyday London society in the early 17th century Although literature is often assumed to belong to the sphere of representation rather than constituting an accurate reflection of social reality early modern English drama can tell us much about social attitudes in the early seventeenth century The City comedies were in particular composed by authors who were embedded in the mundane social existence of London in its quotidian transactions and exchanges in its less salubrious contexts of debt drinking death and incarceration To elucidate the complex social attitudes of the City urban elite five particular themes are

explored the symbolism of attire matrimonial talk the use of money coin as metaphor and metonymy over exuberance towards the opportunity of the New World and continuing differences of speech and customary language use Although the dramatists had slightly differing allegiances their commentaries all illuminate middling society in the City of London This new work by David Postles raises important questions in an innovative manner It will certainly be welcomed by the historical community Bernard Capp FBA Dept of History University of Warwick David Postles is one of the most innovative social historians writing today Nigel Goose Professor of Social and Economic History University of Hertfordshire This book will be significant reading for all those working in the field It will be warmly received by readers and reviewers and will remain a work of reference for scholars and students for the future Greg Walker Regius Professor of Rhetoric and English Literature University of Edinburgh
