Shakespeare's Troilus Cressida And Its Setting:

Shakespeare's Troilus & Cressida and Its Setting Robert Kimbrough, 1964 *Aspects of Shakespeare's 'Problem Plays'* Kenneth Muir, Stanley Wells, 1982-02-18 These articles reprinted from various volumes of Shakespeare Survey concern three plays which have gradually become appreciated by critics and in the theatre Since the early years of this century they have been seen as an interrelated group with a peculiarly twentieth century appeal Measure for Measure concerned as it is with adolescents first encounters with sex love and death has a special appeal for young people Troilus and Cressida set in the Trojan War has been found deeply relevant to our own war troubled times and All's Well That Ends Well sharing these preoccupations is a necessary companion piece John Barton who has directed all three plays is interviewed in one of the articles which together illustrate the often heated controversy about the plays Reviews and photographs of post war productions at Stratford are also included The book as a whole is designed as a stimulating introduction to these plays and to conflicting interpretations of them *Shakespeare's "Troilus and Cressida" and Its Setting* Robert Kimbrough, 1964

Shakespeare's Arguments with History R. Knowles, 2001-12-21 Argument was the basis of Renaissance education both rhetoric and dialectic permeated early modern humanist culture including drama This study approaches Shakespeare's history plays by analyzing the use of argument in the plays and examining the importance of argument in Renaissance culture Knowles shows how analysis of arguments of speech and action take us to the core of the plays in which Shakespeare interrogates the nature of political morality and truth as grounded in the history of what men do and say The New Cambridge Bibliography of English Literature: Volume 1, 600-1660 George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *Shakespeare's Entrails* D. Hillman, 2006-12-14 Shakespeare's Entrails explores the connections between embodiment knowledge and acknowledgement in Shakespeare's plays Hillman sets out a theory of the emergence of modern subjectivity in the context of a world that was increasingly coming to see the human body as a closed system **Shakespeare's Classical Mythology: A Dictionary** Janice Valls-Russell, Katherine Heavey, 2024-10-17 Why does Bassanio compare himself to Jason What is Hecuba to Hamlet Is the mechanicals staging of the Pyramus and Thisbe story funny or sad This dictionary elucidates Shakespeare's use of mythological references in an early modern context while bringing them to life for today's audiences and readers at a time of renewed critical interest in the reception of the classics and fascination with classical mythology in popular culture It is also a precious tool for practitioners

who may not always know quite what to make of mythological references Mythological figures creatures places and stories crowd Shakespeare's plays and poems featuring as allusions poetic analogies inset shows scene settings and characters or plots in their own right Most of these references were familiar to Shakespeare's spectators and readers who knew them from the writings of Ovid Virgil and other classical authors or indirectly through translations commentaries ballads and iconography This dictionary illustrates how far from being isolated a mythological reference may resonate with the poetics of the text and its structure cast light on characters and contexts and may therefore be worth exploring onstage in a variety of ways The 200 headings correspond to words and names actually used by Shakespeare individual figures Dido Venus Hercules categories Amazons Centaurs nymphs satyrs places Colchos Troy Medium and longer entries also cover early modern usage and critical analysis in a cross disciplinary approach that includes reception textual performance gender and political studies

Shakespeare and the Rival Playwrights, 1600-1606 David Farley-Hills, 2002-09-11 David Farley Hills argues that Shakespeare did not work in splendid isolation but responded as any other playwright to the commercial and artistic pressures of his time In this book he offers an interpretation of seven of Shakespeare's plays in the light of pressures exerted by his major contemporary rivals The plays discussed are Hamlet Troilus and Cressida All's Well That Ends Well Othello Measure for Measure Timon of Athens and King Lear

Shakespeare and the Uses of Antiquity Michelle Martindale, 2005-07-15 Although a third of his plays are set in the ancient world and he constantly used classical mythology history and ideas Shakespeare received a simple grammar school education and did not have a scholar's knowledge of the classics The critical implications of this are the subject of Shakespeare and the Uses of Antiquity Against a recent academic tendency to exaggerate Shakespeare's learning the authors investigate how he used his comparatively restricted knowledge to create for example an unusually convincing picture of Rome and analyse by presenting us with careful readings of specific passages the styles Shakespeare employed under the influence of classical writers especially Ovid Seneca and in translation Homer and Plutarch

Unconformities in Shakespeare's Tragedies Kristian Smidt, 2016-01-01 This work attempts to analyze Shakespeare's tragedies concentrating on the accidental irregularities and the inspired unconformities to be found there The aim is to understand Shakespeare's mind and craft by an interpretation of the plays to see what problems of consistency they present
