Four Hundred Years of Shakespeare in Europe Angel-Luis Pujante,A. J. Hoenselaars,2003 Table of contents

Shakespeare's Europe Fynes Moryson,1903 **Shakespeare And Renaissance Europe** Andrew Hadfield,2014-05-13

This collection of essays explores the diverse ways in which Shakespeare and his contemporaries experienced and imagined Europe The book charts the aspects of European politics and culture which interested Renaissance travellers thus mapping the context within which Shakespeare s plays with European settings would have been received Chapters cover the politics of continental Europe the representation of foreigners on the English stage the experiences of English travellers abroad Shakespeare s reading of modern European literature the influence of Italian comedy his presentation of Moors from Europe s southern frontier and his translation of Europe into settings for his plays **Special Section, European Shakespeares**

Graham Bradshaw,Tom Bishop,2008 This eighth volume of The Shakespearean International Yearbook presents a special section on European Shakespeares which highlights how the inclusion of Shakespeare in European culture has been not only a European but also a world affair Contributors to this issue come from Europe North America South Africa and India In addition to the section on European Shakespeares essays in this volume consider issues of character and the genre of romance and other topics **Shakespeare's England** Sir Sidney Lee,Charles Talbut Onions,1916 **Shakespeare's Europe** Fynes Moryson,1967

Shakespeare's Italian Settings and Plays Murray J Levith,1989-01-16 *Intermedial Shakespeares on European Stages* A. Mancewicz,2014-08-06 Intermedial Shakespeares argues that intermediality has refashioned performances of Shakespeare s plays over the last two decades in Europe It describes ways in which text and author time and space actor and audience have been redefined in Shakespearean productions that incorporate digital media and it traces transformations in practice *Shakespeare's Europe* Fynes Moryson,Charles Hughes,1903 *Shakespeare and European Politics* Dirk Delabastita,Jozef de Vos,Paul Franssen,2008 This volume s main focus is on the ways in which over the past 400 years Shakespeare has played a role of significance within a European framework particularly where a series of political events and ideologically based developments were concerned such as the early modern wars of religion the emergence of the nation during the late eighteenth and nineteenth centuries the First and Second World Wars the process of European unification during the 1990s the attack on the World Trade Center in New York and Britain s participation in the war in Iraq The whole of the collection and particularly the opening section clearly invites a European and even a global perspective This book convincingly demonstrates that Shakespeare both at the level of his meaning in his own time and at that of his reception in later ages should no longer be studied only in relation to particular nations but as Dirk Delabastita argues also at various supranational levels Book Jacket
