[Shamanic Christianity](#) Bradford Keeney,2006-03-13 A guide to reconnecting with Jesus Mary and the saints as shamanic teachers of divine mysteries Contains meditations contemplations parables and active ritual tasks that help bring forth a shamanic understanding and practice of Christianity Shows shamanic experience to be the root of mystical communion When the missionaries came to North America to save the American Indians they were perplexed to discover that while they talked about Jesus some of the Indians claimed to talk directly with him Among Christians there is almost complete silence on the subject of the place of shamanism in experiencing the divine yet shamanic experience is at the root of all mystical communion Shamanic Christianity offers a chance to rekindle the shamanic practices of Christianity to those who wish to restore their direct connection to the spirit world In the tradition of contemplative practice this reconnection takes the form of devotions Presented in four forms these devotions begin with a specific contemplation followed by a meditative focus then a parable from the author s own visionary experiences and finally an active mystical practice to help ground the meditations and contemplations in a ritual or ceremony that involves active participation These four forms serve to reintroduce Jesus Mary and the historically renowned saints as shamanic teachers of divine mysteries whose spiritual presence is readily available to contemporary lives The author also presents specific directives for handling everyday challenges in a shamanic inspired manner drawing upon creative activities and resources that encourage approaching the world with the imaginative and playful spirit of a child whose personal freedom and creative expression is always wide open to possibilities *Rethinking Religion in the Theatre of Grotowski* Catharine Christof,2017-03-27 This book opens a new interdisciplinary frontier between religion and theatre studies to illuminate what has been seen as the religious or spiritual nature of Polish theatre director Jerzy Grotowski s work It corrects the lacunae in both theatre studies and religious studies by examining the interaction between the two fields in his artistic output The central argument of the text is that through an embodied and materialist approach to religion developed in the work of Michel Foucault and religious studies scholar Manuel Vasquez as well as a

critical reading of the concepts of the New Age a new understanding of Grotowski and religion can be developed It is possible to show how Grotowski s work articulated spiritual experience within the body achieving a removal of spirituality from ecclesial authorities and relocating spiritual experience within the body of the performer This is a unique analysis of one of the 20th Century s most famous theatrical figures As such it is a vital reference for academics in both Religion and Theatre Studies that have an interest in the spiritual aspects of Grotowski s work The Science of the Craft William H. Keith,2005 Advancements in science have taken us further and further from the tangibles our ancestors used to define and understand their world science has attempted to draw a careful line between what can be proven and what cannot But a revolution is at hand keith explains how a fresh look at quantum physics supports phenomena that have long been ridiculed or ignored by classical science In engaging and frank prose Keith argues that magic is governed by laws similar to those that define scientific principles This is a truly fascinating gateway for exploring psychic phenomena **Shamanic Spirit** Kenneth Meadows,2004-04-09 A guide to self realization and reattunement with nature that utilizes the ancient shamanic wisdom of cultures from around the world Focuses on the development of grounded spirituality based on the connections indigenous traditions have with nature Contains 33 hands on experiential exercises and 50 shamanic meditations Written by the author of Earth Medicine and Shamanic Experience Those of us who live in the so called advanced modern world have been educated to use our minds and encouraged to satisfy our physical needs But in so doing we have become isolated from the very essence of our existence as individuals our own spirit In Shamanic Spirit Kenneth Meadows introduces Shamanics his spiritual science of living which recognizes the primacy of the spirit and acknowledges that spirit is inherent in all living beings and life forms Shamanics is a practical way of becoming aware of our multi dimensional reality and using that awareness to cultivate and refine the spirit within Using the symbolic structure of the Medicine Wheel which helps us establish a sense of direction extend perception and examine relationships Meadows presents 33 hands on experiential exercises that help readers discover the truth about themselves His approach also draws upon and integrates universal shamanic concepts from such regions as the Americas Europe the Middle East India China and Polynesia to show readers how to release their dormant potentials generate creativity and meet the challenges of their lives with confidence and self assurance Shamanic Breathwork Linda Star Wolf,2009-11-17 Utilizing the healing power of breath to change consciousness Explains how to enter altered states of consciousness increase paranormal abilities and resolve old traumas using breathwork Introduces the Five Cycles of Change that bring about major life shifts and how to work with them Includes 70 minute audio download of chakra attuned rhythms to play during the journey Incorporating psychospiritual tools with her Shamanic Breathwork practice Linda Star Wolf shows how to spiritually journey in the same way shamans entrain to the rhythms of drums or rattles using the breath either alone or together with music Much like traveling to sacred places or ingesting entheogens this practice can be used to enter altered states of consciousness connect to cosmic consciousness
