Joseph Robinson

Shankill Butchers The Real Story Of Cold Blooded Mass Murder:

The Shankill Butchers Martin Dillon, 2024-11-01 During the 1970s a group of Protestant paramilitaries embarked on a spree of indiscriminate murder which left thirty Northern Irish Catholics dead Their leader was Lenny Murphy a fanatical Unionist whose Catholic sounding surname led to his persecution as a child for which he took revenge on all Catholics Not for the squeamish The Shankill Butchers is a horrifyingly detailed account of one of the most brutal series of murders in British legal history a phenomenon whose real nature has been obscured by the political and violent context from which it sprang Northern Ireland: The Troubles Kenneth Lesley-Dixon, 2020-01-31 It is of course no secret that undercover Special Forces and intelligence agencies operated in Northern Ireland and the Republic throughout the troubles from 1969 to 2001 and beyond What is less well known is how these units were recruited how they operated what their mandate was and what they actually did This is the first account to reveal much of this hitherto unpublished information providing a truly unique record of surveillance reconnaissance intelligence gathering collusion and undercover combat An astonishing number of agencies were active to combat the IRA murder squads the Provos among others the Military Reaction Force MRF and the Special Reconnaissance Unit also known as the 14 Field Security and Intelligence Company The Det as well as MI5 Special Branch the RUC the UDR and the Force Research Unit FRU later the Joint Support Group JSG It deals with still contentious and challenging issues as shoot to kill murder squads the Disappeared and collusion with loyalists It examines the findings of the Stevens Cassel and De Silva reports and looks at operations Loughgall Andersonstown Gibraltar and others

Transitional Justice and the Politics of Inscription Joseph Robinson, 2017-08-04 Taking Northern Ireland as its primary case study this book applies the burgeoning literature in memory studies to the primary question of transitional justice how shall societies and individuals reckon with a traumatic past Joseph Robinson argues that without understanding how memory shapes moulds and frames narratives of the past in the minds of communities and individuals theorists and practitioners may not be able to fully appreciate the complex emotive realities of transitional political landscapes Drawing on interviews with what the author terms memory curators coupled with a robust analysis of secondary literature from a range of transitional cases the book analyses how the bodies of the dead the injured and the traumatised are written into or written out of transitional justice The author argues that scholars cannot appreciate the dynamism of transitional memory space unless they first engage with the often silenced or marginalised voices whose memories remain trapped behind the antagonistic politics of fear and division Ultimately challenging the imperative of national reconciliation the author argues for a politics of public memory that incubates at multiple nodes of social production and can facilitate a vibrant democratic debate over the ways in which a traumatic past can or should be remembered Freedom or Security Michael Freeman, 2003-05-30 Several democratic countries have used emergency powers to restrict or suspend individual liberties in order to fight terrorism more effectively Emergency powers are controversial in their potential to undermine democracy and

civil liberties Freeman challenges popular arguments of both the supporters of emergency powers who focus on their expected effectiveness and the critics who focus on the dangers In reality the recent experiences of four different democratic states that have invoked emergency powers show that a positive outcome is just as likely as negative outcome As the United States fights its war against terrorism it should heed the lessons learned by other democracies in similar struggles particularly Great Britain's relationship with Northern Ireland in the 70s and 80s Uruguay's response to the Tupamaros in the late 60s and early 70s Canada's dealings with the FLQ in 1970 and Peru's conflict with the Shining Path movement in the 80s and early 90s

Evaluating the Political Rationality of Terrorist Groups Eric van Um, 2015-11-10 This book improves our understanding of terrorists motivations and rationality and may ultimately also indicate how to respond to the phenomenon of terrorism In his research studies Eric van Um explores the political rationality of terrorist groups The political rationality model builds on rational choice theory It demands that terrorist groups take into account the costs and benefits of their available options and choose the option promising them the highest political utility Testing the explanatory power of this model is relevant as rational choice approaches have become very prominent in terrorism research But at the same time their empirical power remains highly contested Increased knowledge of the political rationality model not only promises added value for terrorism research itself but also for social sciences more generally

The Dirty War Martin Dillon, 1999 With all the intrigue of a good spy novel The Dirty War uncovers a real life underground world of double and triple agents many of whom have shared their stories with the author In this enthralling and controversial book Martin Dillon examines the roles played by the Provisional IRA the State forces the Irish Government and the British Army during this troubled period He unravels the mystery of a war in which informers agents and double agents operate and reveals disturbing facts about the way in which the terrorists and the intelligence agencies target undermine and penetrate each other's ranks

Forgetful Remembrance Guy Beiner, 2018-11-10 Forgetful Remembrance examines the paradoxes of what actually happens when communities persistently endeavour to forget inconvenient events The question of how a society attempts to obscure problematic historical episodes is addressed through a detailed case study grounded in the north eastern counties of the Irish province of Ulster where loyalist and unionist Protestants and in particular Presbyterians repeatedly tried to repress over two centuries discomfiting recollections of participation alongside Catholics in a republican rebellion in 1798 By exploring a rich variety of sources Beiner makes it possible to closely follow the dynamics of social forgetting His particular focus on vernacular historiography rarely noted in official histories reveals the tensions between professed oblivion in public and more subtle rituals of remembrance that facilitated muted traditions of forgetful remembrance which were masked by a local culture of reticence and silencing Throughout Forgetful Remembrance comparative references demonstrate the wider relevance of the study of social forgetting in Northern Ireland to numerous other cases where troublesome memories have been concealed behind a veil of supposed oblivion
