Shaping Library Collections For The 1980s:

Shaping Library Collections for the 1980s Peter Spyers-Duran, Thomas W. Mann, 1980 **Building Library Collections** Arthur Curley, Dorothy M. Broderick, 1985 A classic Topics include resource sharing networks the importance of nonbook formats the greater complexity of censorship challenges and the expansion of the library's informational role

Acquisitions, Budgets, and Material Costs Sul H Lee, 2013-10-18 In times of tight materials budgets steeply rising prices and rapidly expanding information formats library professionals will appreciate the valuable insights into acquisitions processes and management of material costs that are offered in this practical new book Respected librarians and vendor representatives contributed to this volume the published proceedings of a recent conference held at the University of Oklahoma These experts examine approval plans including a new approach for the publisher based plan the impact of inflation including the increasing costs of titles in selected subject disciplines causes for the costs and ramifications for libraries and suppliers and the process of materials budgeting from the collection of data to the justification of the budget With increasing demands on librarians to find better budget management strategies and to develop more effective material acquisition processes an environment has evolved in which librarians and book vendors are forced to examine their methods of acquiring and supplying materials to libraries *Acquisitions Budgets and Material Costs Issues and Approaches* provides librarians with readily applicable solutions to today's acquisition problems **Approval Plans** Linda S Katz, John H Sandy, 2013-10-18 How can you as an acquisition librarians keep current on the output of hundreds of publishers The answer of course is that you cannot For over 30 years approval plans have been used by librarians to acquire current titles save staff time and build core collections Even today these reasons seem appropriate as libraries try to maintain up to date collections and control personnel and operating budgets However as shown in *Approval Plans Issues and Innovations* the use of approval plans is not so simple and straightforward their use is subject to complex procedures and policies and even politics This book presents research by librarians from academic libraries and professionals from approval vendors to give you necessary insight on the major approval plan issues and to show you some of the innovative approaches to solving the problems associated with approval plans Unfortunately approval plans are not as simple as creating a needs profile and receiving the books that match that profile from an approval vendor Problems and questions invariably arise If you are in acquisitions and collection development or administration it is particularly important that you explore the following questions posed in *Approval Plans* What mechanisms can reduce receipt of duplicate titles Do vendors see small college libraries as a viable market What role does technology play in improving approval plans What level of returns is acceptable Do the hidden operational costs of approval plans offset their benefits *Approval Plans* is full of useful information that will show you how to save time and money improve collections and utilize new technology The book discusses such key issues as the benefits of approval plans to public service vs the costs to technical service the call for refined profiles to help keep return rates low

proper management in key areas such as profile development quality control and plan maintenance approval plan overlap and vendor responsibilities Innovations covered include the call for introduction of approval plans to small college libraries the possibility of outsourcing technical service functions with vendor supplied cataloging and end processing the use of online services World Wide Web and the Internet to improve communication between vendors publishers and libraries and a list of criteria to be considered when selecting an automated acquisitions system Approval Plans is especially useful and timely as libraries are considering the best ways for acquiring books during an era of declining materials budgets This collection also has special importance in a broader sense to the many changes that are occurring in academic libraries today

Collection Development in the Electronic Environment Sul H Lee, 2000-04-20 Learn to allocate scarce library resources to meet learning research and service goals How can you buy more books and journals with less money while also installing the latest software and hardware paying staff to train faculty and students in its use offering the new round the clock information services users demand and redefining the traditional collection centered model of the library It sounds impossible but these are the conflicting imperatives every collections librarian faces at the dawn of the twenty first century Collection Development in the Electronic Environment offers solid practical advice from the experience of other librarians who have met the same challenges as well as useful information from vendors Based on the conference Collection Development in the Electronic Environment Shifting Priorities this informative book suggests proven effective strategies to deal with a librarian s most pressing problems One case study shows how Iowa State University turned a cutback in journals into a new vision of what the library should be involving a broad based committee in the project Other chapters discuss the specifics of budgeting for the unpredictable pricing of electronic materials the increased demands on library staff and the challenges of maintaining dual libraries the electronic and the paper based both facing expensive issues of preservation Collection Development in the Electronic Environment offers help and advice on the most complex and difficult issues librarians confront planning changes in library structure function and activities building new models for collection development identifying and fulfilling the needs of scholars in various disciplines redefining staff roles and responsibilities setting priorities in journal purchases using electronic innovations to enhance collection development dealing with copyright fair use and intellectual property in electronic formats Through case studies and firsthand experiences Collection Development in the Electronic Environment provides you with the fresh ideas and proven strategies you need to guide your library into the electronic era
