Shaping the urban landscape Gilbert A. Stelter, *Changing Canada* Wallace Clement, Leah F. Vosko, 2003 *Changing Canada* examines political transformations, welfare state restructuring, international boundaries and contexts, the new urban experience and creative resistance. The authors question dominant ways of thinking and promote alternative ways of understanding and explaining Canadian society and politics that encourage progressive social change. They examine how the evolution of capitalism is producing new types of transformations and new forms of resistance and show that aspects of the state and the wider society are being contested. insights into how its residents lived and worked. Receiving particular attention is the socio-economic and residential structure of Vancouver with one author arguing that the city's economy created an urban working class which was at once more complex and politically more conservative than that of the highly polarized communities on Vancouver Island and in the Interior.
