The Hidden Spirituality of Men Matthew Fox, 2010-09-24 It is no secret that men are in trouble today From war to ecological collapse most of the world s critical problems stem from a distorted masculinity out of control Yet our culture rewards the very dysfunctions responsible for those problems To Matthew Fox our crucial task is to open our minds to a deeper understanding of the healthy masculine than we receive from our media culture and religions Popular religion forces the punitive imagery of fundamentalism on us pushing most men away from their natural yearning for spirituality and toward intolerance and domination Meanwhile many men particularly young men are looking for images of healthy masculinity to emulate and finding nothing To awaken what Fox calls the sacred masculine he unearths ten metaphors or archetypes ranging from the Green Man an ancient pagan symbol of our fundamental relationship with nature to the Grandfatherly Heart to the Spiritual Warrior He explores archetypes of sacred marriage showing how partnership

The Hidden Side of Things Charles Webster Leadbeater, 2023-01-31 The term occultism is one which has been much misunderstood In the mind of the ignorant it was even recently synonymous with magic and its students were supposed to be practitioners of the black art veiled in flowing robes of scarlet covered with cabalistic signs sitting amidst uncanny surroundings with a black cat as a familiar compounding unholy decoctions by the aid of satanic evocations Even now and among those whom education has raised above such superstition as this there still remains a good deal of misapprehension For them its derivation from the Latin word occultus ought to explain at once that it is the science of the hidden but they often regard it contemptuously as nonsensical and unpractical as connected with dreams and fortune telling with hysteria and necromancy with the search for the elixir of life and the philosopher s stone Students who should know better perpetually speak as though the hidden side of things were intentionally concealed as though knowledge with regard to it ought to be in the hands of all men but was being deliberately withheld by the caprice or selfishness of a few whereas the fact is that nothing is or can be hidden from us except by our own limitations and that for every man as he evolves the world grows wider and wider because he is able to see more and more of its grandeur and its loveliness
