**Between Us** Batja Mesquita, 2022-07-19 A Behavioral Scientist Notable Book of the Year One of KCRW's Best Reads of the Year A Next Big Idea Club Top 21 Psychology Book of the Year One of Publishers Weekly's Best Books of the Year A pioneer of cultural psychology argues that emotions are not innate but made as we live our lives together How are you feeling today We may think of emotions as universal responses felt inside but in *Between Us* acclaimed psychologist Batja Mesquita asks us to reconsider them through the lens of what they do in our relationships both one on one and within larger social networks From an outside in perspective readers will understand why pride in a Dutch context does not translate well to the same emotion in North Carolina or why one's anger at a boss does not mean the same as your anger at a partner in a close relationship By looking outward at relationships at work school and home we can better judge how our emotions will be understood how they might change a situation and how they change us Brilliantly synthesizing original psychological studies and stories from peoples across time and geography *Between Us* skillfully argues that acknowledging differences in emotions allows us to find common ground humanizing and humbling us all for the better

**The Origins of Corporations** Germain Sicard, 2015-01-01 Fully modern corporations appeared in fourteenth century Toulouse much earlier than previously believed Germain Sicard proves that Europe's first corporations were fourteenth century mill companies operating in Toulouse rather than seventeenth century English and Dutch trading companies as commonly believed He shows that the corporate form derives from a unique ownership contract from Medieval Europe called *pariage* and a culture of strong property rights and municipal self governance Based on archival research Sicard's 1952 thesis has been translated into English with an introduction that places the work in the context of new institutional economics and legal theory It is an important contribution to research on the history and legal origins of the corporation

*Performance and Progress* Subramanian Rangan, 2015-08-21 The prevailing aspiration of business is performance while that of society is progress Capitalism both the paradigm and practice sits at the intersection of these dual aspirations and the essays in this volume explore its fraught status there Contributions to this volume address questions such as i what's the problem with capitalism ii is the problem just with the practice or with the very paradigm iii what is progress

and who is responsible for it iv what evolution is required at the individual system and paradigm level so that enterprises and the executives who lead them may better integrate performance with progress and v whither consumers employees and investors in this evolution The book offers perspectives from two distinct intellectual domains social science and philosophy Scholars in social science including economics management and sociology tend to study performance Ideas of progress on the other hand tend to fall more under the purview of philosophers in particular social and political philosophers Further to obtain an insider s view on practice and possibilities the volume includes essays from a handful of thoughtful business leaders Research should consider not just how to make sustainability profitable but also how to make profitability and the modern economic system sustainable If we are to better comprehend why the world is in protest to reflect on progress or dilemmas of trust we must appreciate the tenuous assumptions of modern microeconomics and markets and hear from modern philosophers about the basis and limits of rationality     **Jet** ,1991-06-24 The weekly source of African American political and entertainment news     **The Decent Society** Avishai Margalit,2009-07-01 Avishai Margalit builds his social philosophy on this foundation a decent society or a civilized society is one whose institutions do not humiliate the people under their authority and whose citizens do not humiliate one another What political philosophy needs urgently is a way that will permit us to live together without humiliation and with dignity Most of the philosophical attention nowadays is drawn to the ideal of the just society based on the right balance between freedom and equality The ideal of the just society is a sublime one but hard to realize The decent society is an ideal which can be realized even in our children s lifetime We should get rid of cruelty first advocated Judith Shklar Humiliation is a close second There is more urgency in bringing about a decent society than in bringing about a just one Margalit begins concretely where we live with all the infuriating acts of humiliation that make living in the world so difficult He argues in a concrete way in the spirit of Judith Shklar and Isaiah Berlin This is a social philosophy that resists all those menacing labels that promote moral laziness just as it urges us to get beyond the behavior that labels other human beings Margalit can t be earmarked as liberal or conservative If a label is necessary then the most suitable is George Orwell s humane socialism a far cry from Animal Farm socialism with its many tools of oppression How to be decent how to build a decent society emerges out of Margalit s analysis of the corrosive functioning of humiliation in its many forms This is a thoroughly argued and what is much more a deeply felt book that springs from Margalit s experience at the borderlands of conflicts between Eastern Europeans and Westerners between Palestinians and Israelis     **Jet** ,1991-06-24 The weekly source of African American political and entertainment news
