Shattered Past Michael Geyer, 2008 Broken glass twisted beams piles of debris these are the early memories of the children who grew up amidst the ruins of the Third Reich More

Berger, C. Lorenz, 2016-01-19 Historians traditionally claim to be myth breakers but national history since the nineteenth century shows quite a record in myth making This exciting new volume compares how national historians in Europe have handled the opposing pulls of fact and fiction and shows which narrative strategies have contributed to the success of national histories *The Happy Burden of History* Andrew S. Bergerson, K. Scott Baker, Clancy Martin, Steve Ostovich, 2011-03-29 Germans are often accused of failing to take responsibility for Nazi crimes but what precisely should ordinary people do differently Indeed scholars have yet to outline viable alternatives for how any of us should respond to terror and genocide And because of the way they compartmentalize everyday life our discipline bound analyses often disguise more than they illuminate Written by a historian literary critic philosopher and theologian *The Happy Burden of History* takes an integrative approach to the problem of responsible selfhood Exploring the lives and letters of ordinary and intellectual Germans who faced the ethical challenges of the Third Reich it focuses on five typical tools for cultivating the modern self myths lies non conformity irony and modeling The authors carefully dissect the ways in which ordinary and intellectual Germans excused their violent claims to mastery with a sense of sovereign impunity They then recuperate the same strategies of selfhood for our contemporary world but in ways that are self critical and humble The book shows how viewing this problem from within everyday life can empower and encourage us to bear the burden of historical responsibility and be happy doing so **Modern Germany in Transatlantic Perspective** Michael Meng, Adam R. Seipp, 2017-10-01 Bringing together incisive contributions from an international group of colleagues and former students *Modern Germany in Transatlantic Perspective* takes stock of the field of German history as exemplified by the extraordinary scholarly career of Konrad H. Jarausch Through fascinating reflections on the discipline's theoretical professional and methodological dimensions

it explores Jarausch's monumental work as a teacher and a builder of scholarly institutions. In this way it provides not merely a look back at the last fifty years of German history but a path forward as new ideas and methods infuse the study of Germany's past.

German Ways of War Jaimey Fisher, 2022-08-12 German Ways of War deploys theories of space mobility and affect to investigate how war films realize their political projects. Analyzing films across the decades from the 1910s to 2000s German Ways of War addresses an important lacuna in media studies while scholars have tended to focus on the similarities between cinematic looking and weaponized targeting between shooting a camera and discharging a gun. This book argues that war films negotiate spaces throughout that frame their violence in ways more revealing than their battle scenes. Beyond that well-known intersection of visibility and violence German Ways of War explores how the genre frames violence within spatio-affective operations. The production of novel spaces and evocation of new affects transform war films including the genre's manipulation of mobility, landscape, territory, scales, and topological networks. Such effects amount to what author Jaimey Fisher terms the films' affective geographies that interweave narrative, generated affects, spatial depictions, and political processes.

Between Lipany and White Mountain, 2014-07-17 This book presents a collection of twelve seminal essays by Czech historians on the history of the Czech lands from the fifteenth through seventeenth centuries which originally appeared in Czech publications as articles and book chapters and are translated here for the first time in English. The essays address a broad range of topics including politics, religion, demography, everyday life, crime, and rural and urban society. By bringing to English-speaking readers the rich history and historical writing of the Czech lands through the lens of Czech historians, the book seeks to expand knowledge about the place of these lands in late medieval and early modern Europe and the rich mosaic and shared history of the peoples and cultures of Europe.

Turizm Anne E. Gorsuch, Diane P. Koenker, 2018-09-05 In the Soviet Union and the eastern bloc, the idea of vacation was never as uncomplicated as throwing some suitcases in the car and heading for the beach. The emphasis was on individual self-improvement within the framework of the collective, an approach manifest in everything from the scheduling of physical exercise to the group tours organized for factory workers, Party cadres, and other segments of society. Like other Soviet-style utopian projects, socialist tourism, which was often heavily laden with rules and prescriptions, was a consciousness-raising project, part of the vast effort to forge new socialist men and women. *Turizm* is the first book to examine the history of tourism in Russia and eastern Europe from the tsarist period to the age of Soviet and east European mass tourism in the 1960s and 1970s. The contributors to this volume address topics including the roots of socialist tourism, the role of tourism in the making of nations and maintenance of empire, and ways in which the men and women of the margins of Europe understood themselves in relation to Europe. Especially interesting are chapters that show how individuals pursued their own consumerist goals within the framework of collective tourism, obliging the regimes to adapt. Illustrated with period photographs and promotional materials, *Turizm* will appeal not only to historians of the region but also to anyone with an interest in consumer culture, travel, leisure, and nation building.

Transnational Europe J. DeBardeleben, A. Hurrelmann, 2011-06-21 Transnational connections are a defining feature of contemporary Europe They include cross border economic and cultural exchange migration and political activism This volume probes their political and social significance and makes a case for incorporating transnationalism more systematically into the research agenda of European Studies
