Shattered Eagles Balkan Fragments:

Shattered Eagles, Balkan Fragments Tom Winnifrith, 1995 The collapse of Communism opened up great areas of the Balkans to Western travellers At the same time it exposed old wounds among the different peoples of this troubled area The tragic conflicts in Yugoslavia have brought this home to the rest of the world although the history behind these conflicts is still imperfectly known This book aims to draw attention to those areas of potential discord inhabited by groups scarcely recognized even in their native countries

Greece and the Balkans Dimitris Tziovas, 2017-07-05 Greece and the Balkans explores the cultural relationships between Greece and other Balkan countries in the domains of language literature thought translation and music and examines issues of identity and perception among the Balkan peoples themselves The essays bring together scholars from across a range of disciplines historians anthropologists linguists and musicologists with specialists on literature translation the history of ideas and religion By raising issues of cultural hybridity and nationalist or pre nationalist interpretations of culture and history it lays claim to a place in the context of studies on nationalism and post colonialism Greece and the Balkans also contributes to a recognition of the Balkans as a site like some postcolonial ones where identities have become fused orientalism and eurocentrism blurred and where religion and modernity clashed and co existed By approaching cultural encounters between Greece and the Balkans from a fresh and informed perspective it makes a substantial contribution to the study of a rather neglected aspect in the history of a region which has suffered in the past from narrow minded nationalistic arguments

The Forgotten Minorities of Eastern Europe Arno Tanner, 2004 *Nobody's Kingdom* T.J. Winnifrith, 2021-05-05 The Roman Byzantine and Ottoman Empires foreign invasion communism and tribal conflict these have been the realities of life in Northern Albania for centuries In this rich and comprehensive history Tom Winnifrith examines the many different elements that have shaped this independent and little known region of the Balkans He explores the fundamental division between the South of Albania and its mysterious romantic North more feudal more tribal more Catholic and more prone to Austrian and Italian influence It is also a region less affected by Greece both ancient and modern and by medieval Byzantium or the Orthodox faith Northern Albania with a terrain and climate much harsher than the south of the country has traditionally had little respect for law and authority while its inhabitants remain in thrall to an ancient honour code the kanun demanding blood feuds and terrible revenge Nobody's Kingdom traces the history of this ruggedly beautiful region frequently disturbed by both invaders and internal strife yet retaining a distinct national identity and character From its origins in the ancient kingdom of Illyria and the Roman province of Illyricum through Byzantine and Ottoman rule the granting of Albanian independence in 1912 the rise and fall of communism to its current fragile democracy Northern Albania can be seen as a cultural crossroads especially remarkable given its mountainous and difficult landscape This book both scholarly and readable is the first modern comprehensive history of Northern Albania and is a timely and accessible introduction to a remote and inaccessible region

Yugoslavia and Its Historians Norman M. Naimark, Holly

Case,2003-02-19 Most of what has been written about the recent history of Yugoslavia and the fierce wars that have plagued that country has been produced by journalists political analysts diplomats human rights organization the United Nations and other government and intergovernmental organizations Professional historians of Yugoslavia however have been strangely silent about the wars and the breakup of the country This book is an effort to end that silence The goal of this volume is to bring together insights from a distinguished group of American and European scholars of Yugoslavia to add depth to our historical understanding of that country s recent struggles The first part of the volume examines the ways in which images of the Yugoslav past have shaped current understandings of the region The second part deals more directly with the events of the recent past and also looks forward to some of the problems and future prospects for Yugoslavia s successor states

Cinema of Flames Dina Iordanova,2019-07-25 First study of cinema media and the Balkan wars Wide ranging view of politics and culture of the region The break up of Yugoslavia triggered a truly international film making project Underground Ulysses Gaze Before the Rain Pretty Village Pretty Flame and Welcome to Sarajevo were amongst a host of films created as the conflicts in the region unravelled These conflicts restored the Balkans as a centrepiece of Western imagery and the media especially cinema assumed a leading but ambiguous role in defining it for global consumption through a narrow range of selectively defined images Simultaneously a lot of the high quality cinematic and television work made in the region much of it discussed in this book remains relatively unknown Cinema of Flames attempts to go deeper than the imagery and address some of the general concerns of the cross cultural representation and self representation of the Balkans narrative strategies within the context of Balkan exclusion from the European cultural sphere the cosmopolitan image of Sarejevo diaspora and the representations of villains victims women and ethnic minorities all considered in the general context of Balkan cinema encyclopaedic in scope and brilliance making excellent use of the scholarly literature whilst interweaving analysis of films and other mass media The book will be a superb addition to the literatures on Bosnia and Yugoslavia It will also serve as a standard reference on Balkans film Robert Hayden University of Pittsburgh *Europe* Norman Davies,1996 From the Ice Age to the Cold War and beyond from Reykjavik to Riga from Archimedes to Einstein Alexander to Yeltsin here between the covers of a single volume Norman Davies tells the story of Europe East and West from prehistory to the present day The book s absorbing narrative lays down the chronological and geographical grid on which the dramas of European history have been played out It zooms in from the distant focus of Chapter One which explores the first five million years of the continent s evolution to the close focus of the lasttwo chapters which cover the twentieth century at roughly one page per year In between Norman Davies presents a huge and sweeping canvas packed with fascinating detail analysis and anecdote Alongside Europe s better known stories human national and continental he brings into focus areasoften ignored or misunderstood remembering the stateless nation as well as the nation state Minority communities from heretics and lepers to Jews Romanies and Muslims have not been forgotten This masterly history reveals not only the rich variety of Europe s past

but also the many and rewarding prisms through which it can be viewed Each chapter contains a selection of telephoto capsules illustrating narrower themes and topics that cut across the chronological flow Davies then concludes with a wide angle snapshot of the whole continent as seen from one particular vantage point The overall effect is stunning a kind of historical picture album with panoramic tableaux interspersed by detailed insets and close ups Never before has such an ambitious history of Europe been attempted In range and ambition the originality of its structure and glittering style Norman Davies's Europe represents one of the most important and illuminating history books to be published by Oxford Time Capsules 201 fascinating articles interspersed throughout the narrative focus on incidents or topics as various as The Iceman of the Alps Erotic Graffiti at Pompeii Stradivarius and Psychoanalysing Hitler Each capsule can be tasted as a separate self contained morsel or can be read in conjunction with the narrative into which it is inserted Snapshots 12 panoramic overviews across the changing map of Europe freeze the frames of the chronological narrative at moments of symbolic importance such as Knossos 1628 BC Constantinople AD 330 and Nuremberg 1945 A fully illustrated history Incorporates over 100 superbly detailed maps and diagrams and 32 pages of black and white plates

Lakes and Empires in Macedonian History James Pettifer, Miranda Vickers, 2021-08-26 Lakes and Empires in Macedonian History Contesting the Waters tells the story of Psarades a lakeside village in Macedonian Greece on the shores of the Prespa lake This village which is in many ways a completely typical Greek settlement and yet remains unconventional in its way of life embodies the many contradictions of modern history and in exploring its roots James Pettifer and Miranda Vickers skilfully uncover the wider social cultural and political history of this lake region Drawing from oral testimonies and attentive to the construction of national histories this book considers how the development of international borders movement of people and role of national identities within imperial borderlands shaped Macedonia today What is more by centering the lakes and making use of an innovative environmental historical methodology Pettifer and Vickers offer the first environmental history of this multi ethnic borderland region shared by Greece North Macedonia and Albania The result is a nuanced and sophisticated transnational account of Macedonia from prehistory to the 21st century which will be essential reading for all Balkan scholars

Balkan Identities Maria Todorova, 2004-04 *Balkan Identities* brings together historians anthropologists and literary scholars all working under the shared conviction that the only way to overcome history is to intimately understand it The contributors of *Balkan Identities* focus on historical memory collective national memory and the political manipulation of national identities They refine our understanding of memory and identity in general and explore and assess the significance of particular manifestations of Balkan national identities and national memories in the region The essays in *Balkan Identities* grapple with three major problems the construction of historical memory sites of national memory and the mobilization of national identities While most essays focus on a single country e g Croatia Romania Turkey Cyprus Albania Serbia Bulgaria Greece Macedonia they are in dialogue with each other and share an opposition to rigid isolationist identities Illuminating and

challenging Balkan Identities demonstrates the ever changing nature of a troubled and culturally vibrant region

Historical Dictionary of Albania Robert Elsie, 2010-03-19 Albania is not well known by outsiders it was deliberately closed to the outside world during the communist era Now it has thankfully become free again its borders are open and it can be visited and it is increasingly integrating with the rest of Europe and beyond Unfortunately Albania has had its share of problems in the post communist era it is a land of destitution and despair thanks in part to the Albanian mafia which has turned the country into one of blood feuds kalashnikovs and eternal crises Yet Albania is in essence a European nation like any other and will soon it is to be hoped advance and take its proper place in Europe and the world The second edition of the Historical Dictionary of Albania relates the history of this little known country through a detailed chronology an introduction a bibliography appendixes and over 700 cross referenced dictionary entries on significant persons places and events institutions and organizations and political economic social cultural and religious facets
