book investigates the psychology of victimization. It shows how fundamental assumptions about the world's meaningfulness and benevolence are shattered by traumatic events and how victims become subject to self-blame in an attempt to accommodate brutality. The book is aimed at all those who for personal or professional reasons seek to understand what psychological trauma is and how to recover from it.

Memorials to Shattered Myths Harriet Senie, 2016. *Memorials to Shattered Myths* Vietnam to 9/11 traces the evolution and consequences of a new hybrid paradigm which grants a heroic status to victims of national tragedies and by extension to their families, thereby creating a class of privileged participants in the permanent memorial process. Harriet F. Senie suggests that instead the victims' families be able to determine the nature of an interim memorial, one that addresses their needs in the critical time between the murder of their loved ones and the completion of the permanent memorial. She also observes that the memorials discussed herein are inadvertently based on strategies of diversion and denial that direct our attention away from actual events and reframe tragedy as secular or religious triumph. In doing so, they camouflage history and, seen as an aggregate, they define a nation of victims exactly the concept they and their accompanying celebratory narratives were apparently created to obscure.

Reconstructing a Shattered Egyptian Army Youssef Aboul-Enein, 2014-06-15. Central to CDR Youssef Aboul-Enein's career has been the mission to introduce America's military leaders to Arabic works of military significance. Just like American military leaders who had an obsession for all things Russian during the Cold War in order to understand the Soviets, the war on al-Qaida and the complex nuances of the Arab Spring demand a deeper comprehension of the Middle East from direct sources. The memoirs of General Mohamed Fawzi, Egyptian War Minister from 1967 to 1971, were first published in 1984 but his work has not been translated and remains undiscovered by English-speaking readers. Many in the United States Armed Services have yet to be introduced to his ideas, perspectives, and the seeds by which the 1973 Yom Kippur War were laid. In this new contribution to his series of essays written for *Infantry Journal*, Aboul-Enein has determined to bring to life the military thoughts of this Arab War Minister. This book is a joint Infantry/Naval Institute Press project that has condensed the entire collection of essays on Fawzi to a single volume to provide future generations of America's military leaders with access to his ideas. Fawzi is unique among Arab generals for his scathing critique of his own armed forces and from his critical examination of what went wrong in 1967, he was able to slowly resurrect the Egyptian Armed Forces to a level that enabled Sadat to consider an offensive in 1973. This Egyptian general will provide insights into the level of Soviet cooperation and military aid provided Egypt after the 1967 Six Day War, known simply in Arabic by one word, *al-Naksah*, the setback, not to be confused with the 1948 Arab-Israeli War known by one word, *al-Nakbah*, the catastrophe. While Fawzi lapses into conspiracy, indulges in wishful thinking, and

employs the language of pan Arabism on occasion much like Soviet military theorists couched their ideas in Marxist Leninist rhetoric this will not stop serious American students of war from recognizing his brilliance about the lessons learned from the crushing defeat of Egyptian arms in the 1967 Six Day War
