Shells Of New Guinea And The Central Indo Pacific:

Shells of New Guinea and the Central Indo-Pacific Alan G. Hinton,1975 *The Mollusks* Charles F. Sturm,Timothy A. Pearce,Ángel Valdés,2006 Mollusks have been important to humans since our earliest days Initially when humans were primarily interested in what they could eat or use mollusks were important as food ornaments and materials for tools Over the centuries as human knowledge branched out and individuals started to study the world around them mollusks were important subjects for learning how things worked In this volume the editors and contributors have brought together a broad range of topics within the field of malacology It is our expectation that these topics will be of interest and use to amateur and professional malacologists

The Living Marine Resources of the Western Central Pacific: Seaweeds, corals, bivalves and gastropods (1998) Kent E. Carpenter,Volker H. Niem,1998 Archaeological Research at Caution Bay, Papua New Guinea Thomas Richards,Bruno David,Ken Aplin,2016-12-31 The first volume of the Caution Bay monographs is designed to introduce the goals of the Caution Bay project the nature and scope of the investigations and the cultural and natural setting of the study area *Conservation and Development in Irian Jaya* Ronald Petocz,2023-07-24 Forts and Fortification in Wallacea Sue O'Connor,Andrew McWilliam,Sally Brockwell,2020-09-07 This volume presents ground breaking research on fortified sites in three parts of Wallacea by a highly regarded group of scholars from Australia Europe Southeast Asia and the United States In addition to surveying and dating defensive sites in often remote and difficult terrain the chapters provide an important and scholarly set of archaeological and ethnohistoric studies that investigate the origin of forts in Wallacea Socio political instability from climate events the materialisation of indigenous belief systems and the substantial impact of imperial expansion and European colonialism are examined and comprise a significant addition to our knowledge of conflict and warfare in an under studied part of the Indo Pacific The archaeological record for past conflict is frequently ambiguous and the contribution of warfare to social development is mired in debate and paradox Authors demonstrate that forts and other defensive constructions are costly and complicated structures that while designed and built to protect a community from a threat of imminent violence had and have complicated life histories as a result of their architectural permanence strategic locations and traditional cultural and political significance Understanding why conflict outbreaks like human colonisation often appear in the past as a punctuated event can best be approached through long term records of conflict and violence involving archaeology and allied historical disciplines as has been successfully done here The volume is essential reading for archaeologists cultural heritage managers and those with an interest in conflict studies Professor Geoffrey Clark College of Asia and the Pacific The Australian National University Canberra

Architectonicidae of the Indo-Pacific (Mollusca, Gastropoda) Rüdiger Bieler,1993 Talepakemalai Brian S Bauer,Javier Fonseca Santa Cruz,2021-11-15 The Lapita Cultural Complex first uncovered in the mid 20th century as a widespread archaeological complex spanning both Melanesia and Western Polynesia has subsequently become recognized as of fundamental importance

to Oceanic prehistory Notable for its highly distinctive elaborate dentate stamped pottery Lapita sites date to between 3500 2700 BP spanning the geographic range from the Bismarck Archipelago to Tonga and Samoa The Lapita culture has been interpreted as the archaeological manifestation of a diaspora of Austronesian speaking people specifically of Proto Oceanic language who rapidly expanded from Near Oceania the New Guinea Bismarcks region into Remote Oceania where no humans had previously ventured Lapita is thus a foundational culture throughout much of the southwestern Pacific ancestral to much of the later ethnographically attested cultural diversity of the region

Historical Dictionary of Indonesia Audrey Kahin, 2015-10-29 A wide flung archipelago lying between the Pacific and Indian Oceans Indonesia is the world's most populous Islamic country For over two thousand years it was a crossroads on the major trading route between China and India but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century Declaring its independence from the Dutch in 1945 the Republic of Indonesia was ruled by only two regimes over the next half century Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption However since 2004 Indonesia has successfully carried out four direct elections for president together with an equal number of elections for legislative bodies at all levels of government and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure This third edition of Historical Dictionary of Indonesia contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 900 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Indonesia

The Early Prehistory of Fiji Geoffrey Richard Clark, Atholl Anderson, 2009-12-01 I enjoyed reading this volume It is rare to see such a comprehensive report on hard data published these days especially one so insightfully

contextualised by the editors introductory and concluding chapters These scholars and the others involved in the work really know their stuff and it shows The editors connect the preoccupations of Pacific archaeologists with those of their colleagues working in other island regions and on big questions of colonisation migration interaction and patterns and processes of cultural change in hitherto uninhabited environments These sorts of outward looking big picture contextual studies are invaluable but all too often are missing from locally and regionally oriented writing very much to its detriment In sum the work strongly advances our understanding of the early prehistory of Fiji through its well integrated combination of original research and the reinterpretation of existing knowledge in the context of wider theoretical and historical concerns In doing so The Early Prehistory of Fiji makes a truly substantial contribution to Pacific and archaeological scholarship Professor Ian Lilley The University of Queensland Catalog of the South Pacific Collection University of California, Santa Cruz. University Library,1978 **An Ethnology of the Admiralty Islanders** Sylvia Ohnemus,1998-01-01 In 1931 32 Alfred Buhler 1900 81 who for many years was director of the Museum of Ethnology and the Swiss Museum of European Folklife in Basel assembled a unique collection documenting the culture of the Admiralty Islanders The Admiralty Islands are located on the northern edge of the region of Melanesia and today constitute the Manus province of the independent State of Papua New Guinea In this book commissioned by the Museum der Kulturen in Basel Sylvia Ohnemus for the first time presents the results of Alfred Buhler s collecting and study expedition which she complements with her own contributions based on information gathered in the field *Catalog of the Robert Goldwater Library, the Metropolitan Museum of Art* Robert Goldwater Library,1982 *The Tabulata* ,1974
