Long War Dictatorship And Revolution In El Salvador:

The Long War James Dunkerley, 1982 **Wars of Latin America, 1948-1982** René De La Pedraja, 2013-04-29 This book continues the narrative begun by the author in *Wars of Latin America 1899-1941*. It provides a clear and readable description of military combat occurring in Latin America from 1948 to the start of 1982. In an unusual peaceful lull Latin America experienced no wars from 1942 to 1947. Although the text concentrates on combat narrative matters of politics, business and international relations appear as necessary to explain the wars. The author draws on many previously unknown sources to provide information never before published. The book traces the many insurgencies in Latin America as well as conventional wars. Among the highlights are the chapters on the Cuban and Nicaraguan insurrections and on the Bay of Pigs invasion. One goal of the text is to explain why of the many insurgencies appearing in Latin America only those in Cuba and Nicaragua were successful in overthrowing governments. The book also helps explain why even unsuccessful insurgencies have survived for decades as has happened in Colombia and Peru. Instructors considering this book for use in a course may request an examination copy here The Salvador Option Russell Crandall, 2016-05-23 El Salvador's civil war between the Salvadoran government and Marxist guerrillas erupted into full force in early 1981 and endured for eleven bloody years. Unwilling to tolerate an advance of Soviet and Cuban backed communism in its geopolitical backyard the US provided over six billion dollars in military and economic aid to the Salvadoran government. El Salvador was a deeply controversial issue in American society and divided Congress and the public into left and right. Relying on thousands of archival documents as well as interviews with participants on both sides of the war, *The Salvador Option* offers a thorough and fair minded interpretation of the available evidence. If success is defined narrowly there is little question that the *Salvador Option* achieved its Cold War strategic objectives of checking communism. Much more difficult however is to determine what human price this success entailed: a toll suffered almost entirely by Salvadorans in this brutal civil war. **The Routledge Handbook of Insurgency and Counterinsurgency** Paul B. Rich, Isabelle Duyvesteyn, 2012-03-15 This new handbook provides a wide ranging overview of the current state of academic analysis and debate on insurgency and counterinsurgency as well as an up to date survey of contemporary insurgent movements and counter insurgencies. In recent years and more specifically since the insurgency in Iraq from 2003 academic interest in insurgency and counterinsurgency has substantially increased. These topics have become dominant themes on the security agenda replacing peacekeeping humanitarian operations and terrorism as key concepts. The aim of this volume is to showcase the rich thinking that is available in the area of insurgency and counterinsurgency studies and act as a further guide for study and research. In order to contain this wide ranging topic within an accessible and informative framework the Editors have divided the text into three key parts: Part I Theoretical and Analytical Issues; Part II Insurgent Movements; Part III Counterinsurgency Cases. *The Routledge Handbook of Insurgency and Counterinsurgency* will be of great interest to all students of insurgency and small wars, terrorism, counter terrorism, strategic studies, security studies.

Modern Insurgencies and Counter-Insurgencies Ian F. W. Beckett,2001-07-26 Modern Insurgencies and Counter Insurgencies explores how unconventional warfare tactics have opposed past and present governments all over the world from eighteenth century guerrilla warfare to the urban terrorism of today Insurgency remains one of the most prevalent forms of conflict and

presents a crucial challenge to the international community. *Foreign Political Engagement* D. Geldenhuys, 2016-07-27 The 1990s have witnessed several major external initiatives to reshape the domestic political arrangements of countries. Because these have been collective foreign ventures usually with the active collaboration of the target countries, the term intervention is ill suited. Instead, Deon Geldenhuys introduces the notion of foreign political engagement to describe international attempts at remaking countries in the image of the West. South Africa, Kenya, Somalia, Russia, Cambodia, El Salvador, and Haiti serve as case studies to demonstrate this important theoretical rethinking of international relations today. **Inside The Volcano** Frederick Stirton Weaver, 2018-02-19 This book provides a historical background to recent Central American social unrest, repression, and revolution to help readers engage in current arguments, claims, and debates in a critically and historically informed manner. Captured Peace Christine J. Wade, 2016-01-15 El Salvador is widely considered one of the most successful United Nations peacebuilding efforts, but record homicide rates, political polarization, socioeconomic exclusion, and corruption have diminished the quality of peace for many of its citizens. In *Captured Peace: Elites and Peacebuilding in El Salvador*, Christine J. Wade adapts the concept of elite capture to expand on the idea of captured peace, explaining how local elites commandeered political, social, and economic affairs before war's end and then used the peace accords to deepen their control in these spheres. While much scholarship has focused on the role of gangs in Salvadoran unrest, Wade draws on an exhaustive range of sources to demonstrate how day-to-day violence is inextricable from the economic and political dimensions. In this in-depth analysis of postwar politics in El Salvador, she highlights the local actors' primary role in peacebuilding and demonstrates the political advantage an incumbent party in this case, the Nationalist Republican Alliance (ARENA), has throughout the peace process and the consequences of this to the quality of peace that results. *When States Kill* Cecilia Menjívar, Néstor Rodríguez, 2009-07-21 Since the early twentieth century, technological transfers from the United States to Latin American countries have involved technologies of violence for social control. As the chapters in this book illustrate, these technological transfers have taken various forms, including the training of Latin American military personnel in surveillance and torture and the provision of political and logistic support for campaigns of state terror. The human cost for Latin America has been enormous: thousands of Latin Americans have been murdered, disappeared, or tortured, and whole communities have been terrorized into silence. Organized by region, the essays in this book address the topic of state-sponsored terrorism in a variety of ways. Most take the perspective that state-directed political violence is a modern development of a regional political structure in which U.S. political interests weigh heavily. Others acknowledge that Latin American states enthusiastically received U.S. support for their campaigns of terror. A few see local culture and history as key factors in the implementation of state campaigns of political violence. Together, all the essays exemplify how technologies of terror have been transferred among various Latin American countries, with particular attention to the role that the United States, as a strong state, has played in such transfers. Taking Power John Foran, 2005-11-17 *Taking Power* analyzes the

causes behind some three dozen revolutions in the Third World between 1910 and the present It advances a theory that seeks to integrate the political economic and cultural factors that brought these revolutions about and links structural theorizing with original ideas on culture and agency It attempts to explain why so few revolutions have succeeded while so many have failed The book is divided into chapters that treat particular sets of revolutions including the great social revolutions of Mexico 1910 China 1949 Cuba 1959 Iran 1979 and Nicaragua 1979 the anticolonial revolutions in Algeria Vietnam Angola Mozambique and Zimbabwe from the 1940s to the 1970s and the failed revolutionary attempts in El Salvador Peru and elsewhere It closes with speculation about the future of revolutions in an age of globalization with special attention to Chiapas the post September 11 world and the global justice movement

Whose Peace? Critical Perspectives on the Political Economy of Peacebuilding M. Pugh, N. Cooper, M. Turner, 2016-01-04 The book provides critical perspectives that reach beyond the technical approaches of international financial institutions and proponents of the liberal peace formula It investigates political economies characterized by the legacies of disruption to production and exchange by population displacement poverty and by criminality
