Backpack Ambassadors Richard Ivan Jobs,2017-05-23 Even today in an era of cheap travel and constant connection the image of young people backpacking across Europe remains seductively romantic In Backpack Ambassadors Richard Ivan Jobs tells the story of backpacking in Europe in its heyday the decades after World War II revealing that these footloose young people were doing more than just exploring for themselves Rather with each step each border crossing each friendship they were quietly helping knit the continent together From the Berlin Wall to the beaches of Spain the Spanish Steps in Rome to the Pudding Shop in Istanbul Jobs tells the stories of backpackers whose personal desire for freedom of movement brought the people and places of Europe into ever closer contact As greater and greater numbers of young people trekked around the continent and a truly international youth culture began to emerge the result was a Europe that even in the midst of Cold War tensions found its people more and more connected their lives more and more integrated Drawing on archival work in eight countries and five languages and featuring trenchant commentary on the relevance of this period for contemporary concerns about borders and migration Backpack Ambassadors brilliantly recreates a movement that was far more influential and important than its footsore travelers could ever have realized

Living with a Wild God Barbara Ehrenreich,2014-04-08 From the New York Times bestselling author of Nickel and Dimed comes a brave frank and exquisitely written memoir that will change the way you see the world Barbara Ehrenreich is one of the most important thinkers of our time Educated as a scientist she is an author journalist activist and advocate for social justice In Living With a Wild God she recounts her quest beginning in

childhood to find the Truth about the universe and everything else What's really going on Why are we here In middle age she rediscovered the journal she had kept during her tumultuous adolescence which records an event so strange so cataclysmic that she had never in all the intervening years written or spoken about it to anyone It was the kind of event that people call a mystical experience and to a steadfast atheist and rationalist nothing less than shattering In *Living With a Wild God* Ehrenreich reconstructs her childhood mission bringing an older woman's wry and erudite perspective to a young girl's impassioned obsession with the questions that at one point or another torment us all The result is both deeply personal and cosmically sweeping a searing memoir and a profound reflection on science religion and the human condition With her signature combination of intellectual rigor and uninhibited imagination Ehrenreich offers a true literary achievement a work that has the power not only to entertain but amaze

The Third World in the Global 1960s Samantha Christiansen, Zachary A.

Scarlett,2013 Decades after the massive student protest movements that consumed much of the world the 1960s remain a significant subject of scholarly inquiry While important work has been done regarding radical activism in the United States and Western Europe events in what is today known as the Global South Asia Africa and Latin America have yet to receive the attention they deserve This volume inserts the Third World into the study of the 1960s by examining the local and international articulations of youth protest in various geographical social and cultural arenas Rejecting the notion that the Third World existed on the periphery it situates the events of the 1960s in a more inclusive context building a richer more nuanced understanding of the era that better reflects the dynamism of the period **Resister** Bruce Dancis,2014-02-06

Bruce Dancis arrived at Cornell University in 1965 as a youth who was no stranger to political action He grew up in a radical household and took part in the 1963 March on Washington as a fifteen year old He became the first student at Cornell to defy the draft by tearing up his draft card and soon became a leader of the draft resistance movement He also turned down a student deferment and refused induction into the armed services He was the principal organizer of the first mass draft card burning during the Vietnam War an activist in the Resistance a nationwide organization against the draft and a cofounder and president of the Cornell chapter of Students for a Democratic Society Dancis spent nineteen months in federal prison in Ashland Kentucky for his actions against the draft In **Resister** Dancis not only gives readers an insider s account of the antiwar and student protest movements of the sixties but also provides a rare look at the prison experiences of Vietnam era draft resisters Intertwining memory reflection and history Dancis offers an engaging firsthand account of some of the era s most iconic events including the 1963 March on Washington for Jobs and Freedom the Abbie Hoffman led hippie invasion of the New York Stock Exchange the antiwar confrontation at the Pentagon in 1967 and the dangerous controversy that erupted at Cornell in 1969 involving African American students their SDS allies and the administration and faculty Along the way Dancis also explores the relationship between the topical folk and rock music of the era and the political and cultural rebels who sought to change American society **Catalog of Copyright Entries. When Poetry Ruled the Streets Andrew Feenberg,Jim Freedman,2010-03-29 More than a history this book is a passionate reliving of the French May Events of 1968 The authors ardent participants in the movement in Paris documented the unfolding events as they pelted the police and ran from the tear gas grenades Their account is imbued with the impassioned efforts of the students to ignite political awareness throughout society Feenberg and Freedman select documents graffiti brochures and posters from the movement and use them as testaments to a very different and exciting time Their commentary informed by the subsequent development of French culture and politics offers useful background information and historical context for what may be the last great revolutionary challenge to the capitalist system **Paris and the Spirit of 1919** Tyler Stovall,2012-03-22 This transnational history of Paris in 1919 explores the global implications of the revolutionary crisis of French society at the end of World War I As the site of the peace conference Paris was a

victorious capital and a city at the center of the world and Tyler Stovall explores these intersections of globalization and local revolution The book takes as its central point the eruption of political activism in 1919 using the events of that year to illustrate broader tensions in working class race and gender politics in Parisian French and ultimately global society which fueled debates about colonial subjects and the empire Viewing consumerism and consumer politics as key both to the revolutionary crisis and to new ideas about working class identity and arguing against the idea that consumerism depoliticized working people this history of local labor movements is a study in the making of the modern world *The Youth Revolution* Anthony Esler,1974
