Men in the Middle James Gilbert, 2005-07 While the 1950s have been popularly portrayed on television and in the movies and literature as a conformist and conservative age the decade is better understood as a revolutionary time for politics economy mass media and family life Magazines films newspapers and television of the day scrutinized every aspect of this changing society paying special attention to the lifestyles of the middle class men and their families who were moving to the suburbs newly springing up outside American cities Much of this attention focused on issues of masculinity both to enforce accepted ideas and to understand serious departures from the norm Neither a period of male crisis nor yet a time of free experimentation the decade was marked by contradiction and a wide spectrum of role models This was in short the age of Tennessee Williams as well as John Wayne In *Men in the Middle* James Gilbert uncovers a fascinating and extensive body

of literature that confronts the problems and possibilities of expressing masculinity in the 1950s Drawing on the biographies of men who explored manhood either in their writings or in their public personas Gilbert examines the stories of several of the most important figures of the day revivalist Billy Graham playwright Tennessee Williams sociologist David Riesman sex researcher Alfred Kinsey Playboy literary editor Auguste Comte Spector and TV sitcom dad Ozzie Nelson and allows us to see beyond the inherited stereotypes of the time Each of these stories in Gilbert's hands adds crucial dimensions to our understanding of masculinity the 1950s No longer will this era be seen solely in terms of the conformist man in the gray flannel suit or the Marlboro Man

The Longman Anthology of American Drama Lee A. Jacobus, 1982 **Now a Major Motion Picture** Christine Geraghty, 2008 Going beyond the process of adaptation Geraghty is more interested in the films themselves and how they draw on our sense of recall While a film reflects its literary source it also invites comparisons to our memories and associations with other versions of the original For example a viewer may watch the 2005 big screen production of *Pride and Prejudice* and remember Austen's novel as well as the BBC's 1995 television movie Adaptations also rely on the conventions of genre editing acting and sound to engage our recall elements that many movie critics tend to forget when focusing solely on faithfulness to the written word

Great Directors at Work David Richard Jones, 1986 The subject of this book is theatre directing in four internationally famous instances The four directors Konstantin Stanislavsky Bertolt Brecht Elia Kazan and Peter Brook all were monarchs of the profession in their time Without their work theatre in the twentieth century so often called the century of the director would have a radically different shape and meaning The four men are also among the dozen or so modern directors whose theatrical achievements have become culture phenomena In histories theories hagiographies and polemics these directors are conferred classic stature as are the four plays on which they worked Chekhov's *The Seagull* Brecht's *Mother Courage and Her Children* and Williams's *A Streetcar Named Desire* have long been recognized in the theatre and in the study as masterpieces They are anthologized ed taught parodied read and produced constantly and globally The culturally conservative might question the presence of Marat-Sade in such august company but Peter Weiss's play stands every chance of figuring in Western repertoires classroom study and theatrical histories until well into the twenty first century In their quite different ways these are all classics of that Western drama which is part of our immediate heritage
