Arts Digest, 1936 *Aesthetic Theory, Abstract Art, and Lawrence Carroll* David Carrier, 2018-09-06 Boldly developing the central traditions of American modernist abstraction Lawrence Carroll's paintings engage with a fundamental issue of aesthetic theory the nature of the medium of painting in highly original frequently extraordinarily successful ways Aesthetic Theory Abstract Art and Lawrence Carroll explains how he understands the medium of painting shows what his art says about the identity of painting as an art discusses the place of his paintings in the development of abstraction and finally offers an interpretation of his art The first monograph devoted to him this philosophical commentary employs the resources of analytic aesthetics Art historians trace the development of art explaining how what came earlier

yields to what comes later Taking for granted that the artifacts they describe are artworks art historians place them within the history of art Philosophical art writers define art explain why it has a history and identify its meaning Pursuing that goal Aesthetic Theory Abstract Art and Lawrence Carroll roams freely across art history focused at some points on the story of old master painting and sometimes on the history of modernism but looking also to contemporary art in order to provide the fullest possible philosophical perspective on Carroll s work **The Fine arts' journal** ,1847 **Making Movies into Art** Kaveh Askari,2014-12-12 Focusing on early cinema s relationship with the pictorial arts this pioneering study explores how cinema s emergence was grounded in theories of picture composition craft and arts education from magic lantern experiments in 1890s New York through to early Hollywood feature films in the 1920s Challenging received notions that the advent of cinema was a celebration of mechanisation and a radical rejection of nineteenth century traditions of representation Kaveh Askari instead emphasises the overlap between craft traditions and modernity in early film Opening up valuable new perspectives on the history of film as art Askari links American silent cinema with the practice of teaching the public how to appreciate fine art charts its entrance into arts education via art schools and university film courses shows how concepts of artistic production entered films through a material interest in the studio and examines the way in which Maurice Tourneur and Rex Ingram made early art films by shaping an image of the film director around the idea of the fine artist
