Agricultural Product Prices William G. Tomek, Harry M. Kaiser, 2014-05-08 Published continuously since 1972
Agricultural Product Prices has become the standard textbook and reference work for students in agricultural and applied economics buyers and sellers of commodities and policymakers clearly explaining conceptual and empirical models applicable to agricultural product markets The new fifth edition uses up to date information and models to explain the behavior of agricultural product prices Topics include price differences over market levels marketing margins price differences over space regionally and internationally and by quality attributes and price variability with the passage of time seasonal and cyclical variations trends and random behavior William G Tomek and Harry M Kaiser review and adapt microeconomic principles to the characteristics of agricultural commodity markets and then apply these principles to the various dimensions of price behavior They also provide an in depth discussion of prices established for futures contracts and their relationship to cash spot market prices cover the influential roles of price discovery institutions such as auctions and negotiated contracts and government policies regulating trade and farms and discuss the specification use and evaluation of empirical models of agricultural prices placing emphasis on the challenges of doing high quality useful analyses and interpreting results Interregional and International Trade Bertil Ohlin, 1933 Technical Bulletin , 1973 Regional Economics Harry W. Richardson, 1970-11-26 Theory of Markets Bertrand M. Roehner, 2012-12-06 Book titles because they are compromises between concision and precision provide but an approximate description of real content For this book an alternative and more comprehensive title would be An investigation of spatial arbitrage as an introduction to the theory of commodity markets trade and space time patterns of price fluctuations In this title both the specificities and the limitations of our approach are emphasized Firstly our approach concentrates on the basic mechanisms of spatial arbitrage leaving aside a number of accessory facets of international trade such as the impact of quotas or of exchange rates Secondly for the sake of simplicity we restrict ourselves to single commodity markets the interrelationship of different goods on multi commodity markets are only occasionally mentioned The previous restrictions however drastic they may at first appear delimit and define what can be considered as the core of the process of trade and of spatial transactions Having thus simplified the object of our study we are able to tackle the problem in a systematic way and to model spatial differentials along with their relationships to the volume of trade both in equilibrium and in non equilibrium situations As far as the subtitle of the book is concerned we shall postpone the discussion of what is meant by the expression analytical economics until the concluding chapter **Fishery Bulletin** , 1989
