Marko Songs From Hercegovina A Century After Karadzic:

Marko songs from Hercegovina a century after Karadžić Laura Gordon Fisher, 1990 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company **Music in the Balkans** Jim Samson, 2013-06-15 This book asks how a study of many different musics in South East Europe can help us understand the construction of cultural traditions East and West It crosses boundaries of many kinds political cultural repertorial and disciplinary Above all it seeks to elucidate the relationship between politics and musical practice in a region whose art music has been all but written out of the European story and whose traditional music has been subject to appropriation by one ideology after another South East Europe with its mix of ethnicities and religions presents an exceptionally rich field of study in this respect The book will be of value to anyone interested in intersections between pre modern and modern cultures between empires and nations and between culture and politics *The Singer of Tales* Albert Bates Lord, Stephen Arthur Mitchell, Gregory Nagy, 2000 Discusses the oral tradition as a theory of literary composition and its applications to Homeric and medieval epic

Homer's Traditional Art John Miles Foley, 2011-12-31 In recent decades the evidence for an oral epic tradition in ancient Greece has grown enormously along with our ever increasing awareness of worldwide oral traditions John Foley here examines the artistic implications that oral tradition holds for the understanding of the Iliad and Odyssey in order to establish a context for their original performance and modern day reception In *Homer's Traditional Art* Foley addresses three crucially interlocking areas that lead us to a fuller appreciation of the Homeric poems He first explores the reality of Homer as their actual author examining historical and comparative evidence to propose that Homer is a legendary and anthropomorphic figure rather than a real life author He next presents the poetic tradition as a specialized and highly resonant language bristling with idiomatic implication Finally he looks at Homer's overall artistic achievement showing that it is best evaluated via a poetics aimed specifically at works that emerge from oral tradition Along the way Foley offers new perspectives on such topics as characterization and personal interaction in the epics the nature of Penelope's heroism the implications of feasting and lament and the problematic ending of the Odyssey His comparative references to the South Slavic oral epic open up new vistas on Homer's language narrative patterning and identity *Homer's Traditional Art* represents a disentangling of the interwoven strands of orality textuality and verbal art It shows how we can learn to appreciate how Homer's art succeeds not in spite of the oral tradition in which it was composed but rather through its unique agency *Nineteenth-century Literature Criticism* Laurie Lanzen Harris, 1981 Excerpts from criticism of the works of novelists poets playwrights short story writers and other creative writers who lived between 1800 and 1900 from the first published critical appraisals to current evaluations *Encyclopedia of the Romantic Era, 1760-1850* Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides

readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism *Die Folklore Südosteuropas* Walter Puchner, 2016-04-18 This comparative investigation is focused on the comparison of contents themes topics motives but also symbolism stereotype situations patterns of behavior etc of sung and narrated oral text in South east Europe Great importance was given to bibliography usually difficult to compile in a time consuming process a separate part at the end of the volume is dedicated to a bibliographie r son e arranged according to countries and genres this will facilitate further and more specific research in special fields of interest This book offers for the first time a comparative survey of nearly all genres of the traditional oral folklore of Southeast Europe independent from language ethnic grouping national borders religion and confessions in this way the high degree of homogeneity of the highly developed traditional oral culture in the historical Balkans is documented as well as the high numbers of variants and versions and the superb literary quality of these orally transmitted lingual manifestations in some cases equal to the written literature of the region Die komparative Untersuchung besch ftigt sich mit dem Vergleich von Inhalten Thematiken und Motiven von gesungenen und gesprochenen Oraltexen in S dosteuropa aber auch symbolischen Konstellationen stereotype Situationen Verhaltensweisen die alle zusammen charakteristische Teile der traditionellen Kulturtopologie des Balkanraums bilden Besondere Sorgfalt wird auf die schwierig und zeitraubend zu erfassenden Bibliographie gelegt ein eigener Abschnitt am Bandende bringt eine ausf hrlich kommentierte kritische Bibliographie nach L ndern und Gattungen geordnet die weiterf hrende spezifischere Forschungsvorhaben erleichtern soll Mit dieser Monographie wird erstmals eine vergleichende Gesamt bersicht ber die s dosteurop ische Folklore geboten unabh ngig von Sprachzugeh rigkeiten Ethnien Staatsgrenzen Religionen und Glaubensgemeinschaften und damit der hohe Grad an Homogenit t der traditionellen Oralkultur dieses historischen Kommunikationsraums nachgewiesen ebenso wie die hohe Variantenanzahl und literarische Qualit t dieser m ndlichen Sprachmanifestationen die der schriftlichen Literatur durchaus ebenb rtig sind Achilleus, Coriolan und ihre Weggef hrten Peter Grossardt, 2009-05-20 Das Buch versucht die vor allem in der deutschsprachigen Homer Philologie oft vertretene Position von der Einzigartigkeit des Achilleus Zorns zu entkr ften und damit zu einem realistischeren Bild von der Entstehung der Troja Sage zu kommen als es bisher gegeben werden konnte Die Grundlage der Untersuchung sind daher mehrere hier erstmals zusammengestellte Epen aus dem s dslawischen iranischen und indischen Bereich die genau dieselbe Motivreihe mit Heldenzorn und Kampfboykott kennen und einige traditionelle Erz hlungen wie die fr hr mische Legende von Coriolan die einen verwandten Heldentypus zeigen und daher vergleichbare Motive aufweisen Das Ergebnis der Untersuchung ist dass das Motiv vom Zorn des Achilleus eines von mehreren traditionellen Mustern war die in je verschiedener Weise die Eroberung einer Stadt durch einen K nig und seinen wichtigsten Vasallen darstellten Diese Helfermuster die sich in anderen indogermanischen Traditionen in isolierter Form
