Marriage And The Family In Eighteenth Century France:

Marriage and the Family in Eighteenth-century France James F. Traer, 1980 *Masculinity and Male Codes of Honor in Modern France* Robert A. Nye, 1998-11-30 In this study of upper class masculinity from the end of the ancien régime in 1789 to the end of World War I Robert Nye argues that manhood masculinity and male sexuality is like femininity a cultural construct comprising a strict set of heroic ideals and codes of honor which few men have been able to realize in practice In doing so Nye destabilizes and historicizes the male body and incorporates gender into the brand of cultural history inaugurated by Norbert Elias in the 1930s *Visions and Revisions of Eighteenth-Century France* Christine Adams, Lisa Jane Graham, Jack R. Censer, 2005-08-18 This volume brings together eight essays all but one previously unpublished that offer innovative strategies for studying society and culture in eighteenth century France Divided into three sections the chapters map out current research paths in social cultural and political history The authors engage the most heated subjects of debate in the field today including the changing nature of political life in the age of Enlightenment the role of public opinion in undermining absolutism and the impact of gender on social relationships and political language in the late eighteenth century They demonstrate a marked interest in the lives of ordinary and humble French people finding that exclusion from the main corridors of power fostered cunning and resourcefulness not political indifference or ignorance The articles encompass the Old Regime and the revolutionary era without falling into the teleological trap of using the former as the backdrop for the events of 1789 On the contrary many of the authors consciously avoid this bias by investigating the Old Regime in its own right or by consciously linking the pre and postrevolutionary eras This decision alone marks an important turning of the tide By establishing a dialogue between the Old Regime and the revolution this volume implicitly pays homage to those historians who insist on the structural continuities that underlay the rupture of 1789 Contributors are Cissie Fairchilds Christine Adams Orest Ranum Lisa Jane Graham Harvey Chisick John Garrigus Lenard Berlanstein and Jack Censer

Convents and Nuns in Eighteenth-Century French Politics and Culture Mita Choudhury, 2018-07-05 Representations of convents and nuns assumed power and urgency within the volatile political culture of eighteenth century France Drawing from a range of literary cultural and legal material Mita Choudhury analyzes how between 1730 and 1789 lawyers religious pamphleteers and men of letters repeatedly asked Who should control the female convent and women religious These sources chronicled the conflicts between nuns and the male clergy among nuns themselves and between nuns and their families conflicts that were presented to the public in the context of potent issues such as despotism citizenship female education and sexuality The cloister operated as a symbol of despotism the equivalent of the Sultan's seraglio or the King's Bastille Before 1770 lawyers and magistrates praised nuns as the personification of virtuous Christian women often victims vulnerable to those who would use them to further their own political ends After 1770 men of letters evaluated nuns according to more secular norms and concluded that the convent had no purpose in society except as a reminder of the

problems inherent in the Old Regime Choudhury elaborates on how nuns were not always passive entities mere objects to be shaped by the political needs of others But because they relied on men in order to make their voices heard the place of women religious in the public sphere was a complex one based on negotiations between female action and male subjectivity During the French Revolution whatever support they had enjoyed was lost as republicans and moderates began to see nuns as potentially disruptive to the social order family life and revolutionary values

Revolutionary Love in Eighteenth- and Early Nineteenth-Century France Allan H. Pasco, 2016-12-05 In this innovative study the author carves out a new field a sociology of literature in which he offers insightful commentary about the nexus of literature and society Calling on history sociology and psychology as well as literature as points of reference Allan Pasco examines the conceptual shift in the ideal of love in eighteenth century France Pasco explores the radical though gradual changes that occurred during the Enlightenment with respect to how the emotion of love was viewed Earlier love had been subordinate to the demands of family king and deity passion was dangerous and to be avoided But over time individual happiness became the greatest good and passion the measure of love Authors as diverse as Marivaux Marmontel Rousseau Bachelard d'Arnaud Pigault Lebrun and Madame de Staël make it clear that the ideal of rapturous love did not live up to its billing it did not last and it brought destructive fantasies an epidemic of disease the scourge of divorce and considerable anguish Still as Pasco points out passion became and remained the ideal and the Romantics were left to plumb its nature

France and Women, 1789-1914 James McMillan, Professor James F. McMillan, 2002-01-08 France and Women 1789-1914 is the first book to offer an authoritative account of women's history throughout the nineteenth century James McMillan author of the seminal work *Housewife or Harlot* offers a major reinterpretation of the French past in relation to gender throughout these tumultuous decades of revolution and war This book provides a challenging discussion of the factors which made French political culture so profoundly sexist and in particular it shows that many of the myths about progress and emancipation associated with modernisation and the coming of mass politics do not stand up to close scrutiny It also reveals the conservative nature of the republican left and of the ingrained belief throughout French society that women should remain within the domestic sphere James McMillan considers the role played by French men and women in the politics culture and society of their country throughout the 1800s

Women in the Great European Revolutions Bailey Stone, 2025-10-30 This book explores and compares the roles mentalities and destinies of elitist and working class women in Europe's most dramatic revolutions England's Puritan Revolution of 1640-1660 France's 1789 Revolution and Russia's 1917 Revolution By providing one of the most detailed analyses to date of how feminist historians sociologists and specialists theorize gender sexuality and patriarchy the author draws connections to current debate over the causation of sociopolitical revolutions and how such scholars speculate about the long term implications of such revolutions for women in the USA and in other countries This book briefly outlines the stage by stage progression of events in the English French and Russian Revolutions thus enabling the general

reader to contextualize more easily its discussion of women's revolutionary experiences in those countries. This book reappraises the relative importance ascribable to gendered cultural and to statist geopolitical factors through the disastrous revolutionary careers of three consort queens: i.e. Henrietta Maria of England, Marie Antoinette of France and Alexandra Feodorovna of Russia, by contrasting their political failings with the political acumen of three earlier regnant queens in these three countries: i.e. Elizabeth I, Catherine de Medici and Catherine II the Great. Finally, this book demonstrates how women of humble social station used these unheard-of revolutionary situations either to express their grievances and voice their social aspirations or, on the other hand, to reaffirm their long-held allegiance to traditional principles, customs and religion. It concludes by discussing race, ethnicity and statism as challenging issues that need to be confronted in any current discussion of women's revolutionary experiences.

Society and Economy in Early Modern Europe, 1450-1789 Barry Taylor, 1989

Family, Gender, and Law in Early Modern France Suzanne Desan, Jeffrey Merrick, 2010-11-01

Church and Society in Eighteenth-century France John McManners, 1999

This second volume begins with a Section on the religion of the people. The clergy offered the liturgical services, sermons, evangelistic missions and the offices sanctifying birth, marriage and death. Distinctions are made between what they intended and how their ministrations were popularly interpreted and incorporated into the social order. Statistical soundings concerning the extent of religious practice and the degree of conviction involved are evaluated. Further chapters deal with processions, pilgrimages and popular practices and superstitions with hermits and confraternities with the impact of reading the Bible and other edifying literature in an age of increasing literacy. Finally comes a view of the twilight world of magic and sorcery. Throughout this Section the comments of theologians and thinkers of the Enlightenment are recorded, whether in coincidence or contradiction. The next section deals with the efficacy of the confessional and the role of the casuistry of the Church in attempting to mould sexual mores, business practices and in the world of the theatre. In the next two Sections the role of religious issues in political affairs is detailed. An overview of the Jansenist quarrel and of the activities of the Jesuits brings in the story of the struggle between Crown and Parlement while an extended portrayal of the life of the Protestant and Jewish communities leads to the history of the debate on toleration involving the Gallican Church in political interventions and controversy. Throughout the two volumes the rising forces of anticlericalism and the tensions within the ecclesiastical establishment have been recorded and these themes come to their climax in a final section on the role played by churchmen in the coming of the Revolution.
