Marriage Chest:

Renaissance Papers 2000 Philip Rollinson, **Love, Sex, and Marriage** Julie Coleman, 2022-06-13 If the language we use influences and reflects the way that we see the world then the fields of LOVE SEX and MARRIAGE will show how speakers of English view their closest social and emotional relationships Love Sex and Marriage provides a classification of English terms for these three fields from the earliest written records of the language until the present day This volume makes it possible to trace changing attitudes towards social and sexual ties and to understand those ties as earlier speakers of English did through the language they used The terms are arranged by meaning and are listed chronologically within semantic fields with their dates of usage Notes on individual terms provide further information about their connotations and development Language does not exist in isolation from the people who speak it so background information about changes in social conditions religious beliefs and medical advancements is also included A brief introduction to basic semantic terminology explains the principles behind the classification and an alphabetical index facilitates the location of individual terms

The Dark Star Robert William Chambers, 2020-09-28 As long as she could remember she had been permitted to play with the contents of the late Herr Conrad Wilner's wonder box The programme on such occasions varied little the child was permitted to rummage among the treasures in the box until she had satisfied her perennial curiosity conversation with her absent minded father ensued which ultimately included a personal narrative dragged out piecemeal from the reticent dreamy invalid Then always a few pages of the diary kept by the late Herr Wilner were read as a bedtime story And bath and bed and dreamland followed That was the invariable routine now once more in full swing Her father lay on his invalid's chair reading his rubber shod crutches rested against the wall within easy reach By him beside the kerosene lamp her mother sat mending her child's stockings and underwear Outside the circle of lamplight the incandescent eyes of the stove glowed steadily through the semi dusk and the child always fascinated by anything that aroused her imagination lifted her gaze furtively from time to time to convince herself that it really was the big familiar stove which glared redly back at her and not a dragon into which her creative fancy had so often transformed it Reassured she continued to explore the contents of the wonder box a toy she preferred to her doll but not to her beloved set of water colours and crayon pencils Some centuries ago Pandora's box let loose a world of troubles Herr Wilner's box apparently contained only pleasure for a little child whose pleasures were mostly of her own invention It was a curious old box made of olive wood and bound with bands of some lacquered silvery metal to make it strong rupee silver perhaps strangely wrought with Arabic characters engraved and in shallow relief It had handles on either side like a sea chest a silver lacquered lock and hasp which retained traces of violent usage and six heavy strap hinges of the same lacquered metal Within it the little child knew that a most fascinating collection of articles was to be discovered taken out one by one with greatest care played with discreetly and at her mother's command returned to their several places in Herr Wilner's box There were in this box two rather murderous looking Kurdish daggers in

sheaths of fretted silver never to be unsheathed it was solemnly understood except by the child's father There was a pair of German army revolvers of the pattern of 1900 the unexploded cartridges of which had long since been extracted and cautiously thrown into the mill pond by the child's mother much to the surprise no doubt of the pickerel and sunfish *The Dark Star* Robert W. Varied images of women studied in a variety of German texts as a springboard for plot or character. A man looks at the portrait of a woman and then sets out to liberate her and make her his own. Die Zauberflöte Maria Stuart an oldman while looking at the picture of his youthful beloved reminisces about his failed courtship. Storm's Immensee. These are just two of many uses of art works depicting women discussed in this book. The art work can displace the living woman as in Hauff's Die Bettlerin vom Pont des Arts in Jensen's Gradiva and in Schimmang's Intimität. A man looking at a painting of himself. E. T. A. Hoffmann's Die Fermate or a man looking at a sculpture comes to appreciate the beauty of the female figure both in art and life. Stifter's Der Nachsommer. The innovative approach, which in part goes back to theories developed by Lessing in his Laokoon, yields via a close reading of a variety of the texts new insights into their structure and meaning.
