winning autonomy In light of this trend a crucial question emerges what happens to individuals within groups who find that their group discriminates against them This volume brings together distinguished scholars who examine this question by weaving together normative political theory with case studies drawn from South Africa the United States India Canada and Britain Classical liberalism deliberative democracy feminism and associative democracy are among the theoretical frameworks used to offer solutions to the complex set of issues raised by minorities within minorities

Hendry,2010-10-18 This book approaches its subject from two angles First there is a detailed and descriptive analysis of the social organisation of and place of marriage in one community in Kyushu To this extent the study is a regional one and provides valuable ethnographic information The second angle however is to analyse this material in the light of other historical ethnographical writings on Japan which puts the regional material in a national context and brings together a great deal of information about Japanese marriage hitherto unpublished in English
