Benefits of a Healthy Marriage United States. Congress. Senate. Committee on Finance. Subcommittee on Social Security and Family Policy, 2004 **Marriage and Values in Public Policy** Elizabeth van Acker, 2017-01-20 Marriage is a site of political conflict It is a controversial issue in the UK Australia and the US where there is a clash of values between neoliberal governments and diverse groups either strongly opposing or supporting marriage In the meantime fewer couples are marrying while other family forms are more widely accepted This book explores this disconnect by examining policy issues such as class divides ethnicity religion same sex marriage gender relations and romantic expectations A top down approach explores different government policy responses to marriage In all three countries there are differences and similarities in how governments react to the changes in family formations but values or conceptions of the desirable play a significant role Enhancing stability and commitment as well as personal responsibility are important for policymakers who aim to keep the family intact and thereby lower the burden on the public purse It is difficult for political actors to respond to conflicting and changing values surrounding the diversity in relationships or to translate them into policies There is a strong case to be made for increased policy attention to adult relationships and a much weaker case for marriage Rich evidence is drawn from interviews with key stakeholders as well as politicians speeches government departmental reports stakeholders documents and responses to government policies and media articles **Public Preferences and Institutional Designs** Niva Golan-Nadir, 2021-12-10 This book explores the existence of gaps between public preferences and institutional designs in democracies and specifically cases in which such gaps are maintained for a long period of time without being challenged by the electorate Gaps such as these can be seen in the complex relations between the state and religion in Israel and Turkey and more specifically in their policies on marriage This line of investigation is interesting both theoretically and empirically as despite their poles apart policies Israel and Turkey share a similar pattern of institutional dynamics Existing explanations for this phenomenon suggested either civil society based arguments or intra institutional dynamics as reasons for the maintenance of such gaps This book enriches our understanding of policy dynamics in democratic systems by introducing a third line of argument one that emphasizes the effective role state institutions play in maintaining such arrangements for long periods often against the public will **Social Security Bulletin**, 1979 *Christian Perspectives on Legal Thought* Michael W. McConnell, Robert Cochran, Angela C. Carmella, 2008-10-01 This book explores for the first time the broad range

of ways in which Christian thought intersects with American legal theory Eminent legal scholars including Stephen Carter Thomas Shaffer Elizabeth Mensch Gerard Bradley and Marci Hamilton describe how various Christian traditions including the Catholic Calvinist Anabaptist and Lutheran traditions understand law and justice society and the state and human nature and human striving The book reveals not only the diversity among Christian legal thinkers but also the richness of the Christian tradition as a source for intellectual and ethical approaches to legal inquiry The contributors bring various perspectives to the subject Some engage the prominent schools of legal thought liberalism legal realism critical legal studies feminism critical race theory and law and economics Others address substantive areas including environmental criminal contract torts and family law as well as professional responsibility Together the essays introduce a new school of legal thought that will make a signal contribution to contemporary discussions of law
