Marriages In Russia Couples During The Economic Transition:

Marriages in Russia Lisa Cubbins, Marina Malysheva, Elena Meshterina, Marina Pisklakova, Natalja Rimashevskaja, Dana Vannoy, 1999-04-30 Researched and written by a collaborative team of Americans and Russians *Marriages in Russia* explores the myths and realities of how the first years of market transformation have affected Russian family life The research project in which 2418 individual interviews of randomly sampled heterosexual couples are used was initiated to determine if the relationships between gender attitudes and the relative social statuses of spouses based on such factors as education occupational prestige and income influence the marital quality spouses experience Whether these variables are linked to domestic violence as data show they are in the United States is also examined The results are surprising in that they often contradict general beliefs about Russian gender attitudes and gender attributes and the analysis of these findings is ultimately a fascinating look at the post Cold War realities of family life in Russia

Marriage, Household and Home in Modern Russia Barbara Alpern Engel, 2021-08-12 Barbara Alpern Engel's *Marriage Household and Home in Modern Russia* is the first book to explore the intricacies of domestic life in Russia across the modern period Surveying the period from 1700 right up to the present day the book explores the marital and domestic arrangements of Russians at multiple levels of society and the impact of broader historical developments including war and revolution upon them It also traces the evolution of marriage household and home as institutions over three centuries whilst also highlighting the inter relationship between public policy and private life in what is a wholly original historical assessment of domesticity in modern Russia In the process the author expertly synthesizes the key works arguments and discussions in the field mapping out the historiographical landscape of this compelling aspect of Russian social history *Marriage Household and Home in Modern Russia* is crucial reading for any student or scholar of modern Russian history

Men in Contemporary Russia Rebecca Kay, 2016-12-05 Rebecca Kay assesses how men in post Soviet Russia are represented through media and popular discourses Using case studies she explores the challenges which have arisen for men since 1991 and the ways in which their responses are shaped by and viewed through the prism of widely accepted attitudes towards gender The lives and concerns of men in provincial Russia are examined through ethnographic fieldwork combining extensive participant observation with in depth interviews The book reveals how individual men strive to maintain a sense of equilibrium between the activities in which they are engaged and the ways in which they are perceived both by others and by themselves The findings of the research have produced significant areas of contrast and comparison with the author's earlier work on women This is drawn out throughout the book placing the study of Russian men in a broader gendered context The issues raised by the men mirror concerns discussed in men's studies literature and popular discourse beyond Russia The book is therefore of interest to a wider international audience as well as contributing to ongoing interdisciplinary debates in Russian Studies Anthropology Sociology and Human Geography addressing the need for new approaches to understanding post Socialist change

Funding Civil

Society Lisa McIntosh Sundstrom, 2006 This book investigates the impact of Western democracy assistance programs on the development of Russian women's and soldiers' rights NGOs in Russia. It argues that the normative content of assistance programs as well as the character of regional political environments fundamentally shape the influence of such programs.

Handbook of European Homicide Research Marieke C. A. Liem, William Alex Pridemore, 2011-10-17 This comprehensive work provides a sourcebook of information about the substantive methodological and policy-oriented aspects of homicide research in Europe. Part one of this work covers the most recent substantive and methodological information about European homicide research. The second part will contain detailed case studies on homicide research in 15-20 individual European nations. This work will be both conceptual and practical. Conceptual aspects will focus on theoretical frameworks and patterns and trends of violence in Europe. Practical aspects will examine the results of empirical research topics relating to different data sources and the variation of legal definitions of violence throughout Europe and policy issues relating to variation in homicide prevention and punishment of homicide offenders throughout Europe. This handbook will not only provide an up-to-date reference that brings together known information but will also offer previously unpublished comprehensive literature reviews and original research findings. The editors' distinctive approach is to provide readers with an English language central source of information about the voluminous literature on European homicide research that is currently spread widely in dozens of different European and American journals. Global Civil

Society and Its Limits G. Laxer, S. Halperin, 2003-04-30 This volume critically examines the promise of a global civil society. Exploring issues in cases of diverse social justice movements, the contributors show that a global civil society is still far from emerging and its promotion may even harm the realization of grassroots democracy. The Internet is an exciting new means for activists to communicate internationally and citizens' movements increasingly coordinate campaigns through transnational advocacy networks but most effective civic action still takes place at national and local levels. "HIV is God's Blessing" Jarrett Zigon, 2011 Zigon's ethnography provides a fascinating window onto the concrete processes through which people undergoing rehabilitation for drug addiction are remade as moral persons. This book adeptly combines ethnographically based descriptions with forays into theology and Soviet history to deliver a compelling account of self-transformation in a contemporary Russian Orthodox milieu. Eugene Raikhel, University of Chicago. Over the last decade, anthropologists have increasingly come to study the role of morality in shaping the course of social life. Within anthropological debates around morality, Zigon has been developing one of the most creative and challenging positions. In this book, he pushes his project to a whole new level, working it out carefully through an important ethnographic case. Those interested in morality in any field will want to read this striking exemplification of the way an anthropology of morality can help us think about social life in new ways. Joel Robbins, University of California, San Diego. **Soviet Baby Boomers** Donald J. Raleigh, 2013-09-19 Soviet Baby Boomers traces the collapse of the Soviet Union and the transformation of Russia into a

modern highly literate urban society through the life stories of the country's first post World War II Cold War generation

Dreaming of a Mail-Order Husband Ericka Johnson, 2007-07-13 In the American media Russian mail order brides are often portrayed either as docile victims or as gold diggers in search of money and green cards Rarely are they allowed to speak for themselves Until now In *Dreaming of a Mail Order Husband* six Russian women who are in search of or have already found U S husbands via listings on the Internet tell their stories Ericka Johnson an American researcher of gender and technology interviewed these women and others The women in their twenties and thirties describe how they placed listings on the Internet and what they think about their contacts with Western men They discuss their expectations about marriage in the United States and their reasons for wishing to emigrate Their differing backgrounds economic situations and educational levels belie homogeneous characterizations of Russian mail order brides Each chapter presents one woman's story and then links it to a discussion of gender roles the mail order bride industry and the severe economic and social constraints of life in Russia The transitional economy has often left people after a month's work either unpaid or paid unexpectedly with a supply of sunflower oil or toilet paper Women over twenty three are considered virtually unmarriageable in Russian society Russia has a large population of women who are single divorced or widowed who would like to be married yet feel that they have no chance finding a Russian husband Grim realities such as these motivate women to seek better lives abroad For many of those seeking a mail order husband children or parents play significant roles in the search for better lives and they play a role in Johnson's account as well In addition to her research in the former Soviet Union Johnson conducted interviews in the United States and she shares the insights about dating marriage and cross cultural communication of a Russian American married couple who met via the Internet [Social Capital and Social Cohesion in Post-Soviet Russia](#) Judyth L. Twigg, Kate Schecter, 2016-09-16 This work shows that the collapse of socialist employment and social service systems and of the USSR itself has had profoundly damaging effects manifested in dislocation and homelessness ethnic strife family breakdown declining life expectancy and soaring rates of violence and crime
