Martha Landscapes:

Carolina's Historical Landscapes Linda France Stine, 1997 Featuring contributions by leading scholars this book goes beyond conventional archaeological studies by placing the description and interpretation of specific sites in the wider context of the landscape that connects them to one another **Long Island Landscapes and the Women Who Designed Them**

Cynthia Zaitzevsky, 2009-02-24 An account of eminent women landscape architects who flourished in the golden age of country estates This beautiful book covers in depth the work of six designers Beatrix Farrand Martha Hutcheson Marian Coffin Ellen Shipman Ruth Dean and Annette Hoyt Flanders and looks at a dozen other less well known women It focuses on the Long Island projects that constituted a large part of their work and brings these pioneering women to life as people and as professionals **Conceptualist Landscapes** Paul Cooper, 2014-07-07 Conceptual gardens depend on inspiration which is

the result of an exhaustive intellectual process The starting point is an IDEA or stimulus that pushes the design along rather than observing more conventional styles whether classical or modernist into which idea or relationships are fitted

Horticultural considerations architectural or aesthetic doctrines and practically based problem solving are either abandoned or regarded as a means to an end rather than the end in itself Idea driven design therefore cannot be taught by a rule of thumb methodology So the way to design a conceptualist garden is not the theme of this book nor does it contain of the peg solutions for garden and landscape designers Rather it encourages student and professional designers to think further towards their designed solutions Landscape Design in Color Mira Engler, 2022-12-27 Architects landscape architects and

urban designers experiment with color and lighting effects in their daily professional practice Over the past decade there has been a reinvigorated discussion on color within architectural and cultural studies Yet scholarly enquiry within landscape architecture has been minimal despite its important role in landscape design This book posits that though color and lighting effects appear natural fleeting and difficult to comprehend the sensory palette of built landscapes and gardens has been carefully constructed to shape our experience and evoke meaning and place character Landscape Design in Color History Theory and Practice 1750 to Today is an inquiry into the themes theories and debates on color and its impact on practice in Western landscape architecture over the past three centuries Divided into three key periods each chapter in the book looks at the use of color in the written and built work of key prominent designers The book investigates thematic juxtapositions such as natural and artificial color and line design and draftsmanship sensation and concept imitation and translation deception and display and decoration and structure and how these have appeared faded disappeared and reappeared throughout the ages Richly designed and illustrated in full color throughout including color palettes this book is a must have resource for students scholars and design professionals in landscape architecture and its allied disciplines The

Archaeology of Protestant Landscapes Kimberly Pyszka, 2023-06-20 Explores how religious institutions used landscapes and architecture to express their religious and social ideologies The book focuses on three religious institutions in the US South

in the eighteenth and nineteenth centuries The Cultured Landscape Sheila Harvey, Ken Fieldhouse, 2005 A team of eminent practitioners and writers contribute to an assessment of the philosophy of landscape and collectively form a new approach to creative design *Peter Walker and Partners: Nasher Sculpture Center Garden* Jane Amidon, 2006-07-06 One of America's leading landscape architects Peter Walker has created a variety of significant landscapes worldwide including joint projects with architects I M Pei Norman Foster and Renzo Piano Walker's broad field of practice includes urban design and planning and the creation of landscapes ranging in size from parks and university campuses to corporate headquarters plazas and private gardens Peter Walker and Partners Nasher Sculpture Center Garden focuses on his garden in Dallas Texas a set of outdoor galleries showcasing the Nasher collection of modern and contemporary sculpture A museum without a roof the garden with its subtle balance of art and nature is also a serene urban park whose beauty perfectly complements Renzo Piano's design for the center Peter Walker's informative sketches drawings and plans along with photographs of the final design reveal the delicate balance between art culture and context at the heart of the Nasher Foundation Sculpture Garden Source Books in Landscape Architecture produced in collaboration with the Knowlton School of Architecture at Ohio State University provide detailed documentation of important new projects *The Dark Landscape of Modern Fiction* Patrick Reilly, 2018-05-08 This title was first published in 2003 This text explores the dark pessimistic truth that pervades the pages of modern texts setting a theme of Dante's Inferno against the work of modern authors including Dostoyevsky Hardy Conrad Wharton Kafka Camus Waugh and Flannery O'Connor The author's thesis is that these writers exhibit a hostility towards the reader an anger that the reader should continue to be so deludedly happy when the writer has become so mortifyingly enlightened At its most characteristic Reilly demonstrates modern fiction seems to achieve a savage satisfaction in inflicting this pain to an extent that could be described as sadistic Reilly traces what he calls this punitive spirit to a character in the Inferno Vanni Fucci who suffering himself does his best to make Dante suffer too Through the study he uses the Inferno as a guide to the prevailing attitudes in modern fiction revealing a parallel between the prohibition of pity within the medieval poem and in the pages of modern texts **Landscape Theory** Rachel DeLue, James Elkins, 2010-10-28 Artistic representations of landscape are studied widely in areas ranging from art history to geography to sociology yet there has been little consensus about how to understand the relationship between landscape and art This book brings together more than fifty scholars from these multiple disciplines to establish new ways of thinking about landscape in art *The Modern Garden* Jane Brown, 2000-10 The Modern Garden is the first fully illustrated overview of the great gardens of the twentieth century It examines hundreds of gardens created throughout the century and around the world from the works of Geoffrey Jellicoe to Roberto Burle Marx Russell Page to Dan Kiley BOOKJACKET
