Chronicles of the Martian Underground: the First Mission K. N. . Morin, 2018-05-20 CMU THE FIRST MISSION is a companion to *Chronicles of the Martian Underground* the dawn of the second age of man It is still a story that takes place in the near future of contemporary time and it still depicts man's first attempt at putting a human presence on the surface of Mars But the shattering of realities and timelines that occurs makes for a distorted tale from the original This story develops

from the Mission Commanders vantage point a middle aged man in the twilight of his career as an astronaut and on his final mission He leads these fearless explorers on a historic journey into the unknown certainly not just any other flight The Viking Explorer had been damaged while they sleep they are cut off from Mission Control left to determine the cause of their circumstances by their own means They are shocked to find that the Earth appears to now be as desolate as Mars and they are confused by the conflicting information they ve accumulated concerning the mysterious gamma ray event and how much time that had actually passed while they were in cryo With no solid answers and no other visible course of action they make their landing attempt and their trip to the surface is a near total disaster
