Martin Luther Religion Als Schicksal:

The History of Everyday Life Alf Ludtke, 2018-11-20 *Alltagsgeschichte* or the history of everyday life emerged during the 1980s as the most interesting new field among West German historians and more recently their East German colleagues. Partly in reaction to the modernization theory pervading West German social history in the 1970s practitioners of *alltagsgeschichte* stressed the complexities of popular experience paying particular attention for instance to the relationship of the German working class to Nazism. Now the first English translation of a key volume of essays *Alltagsgeschichte Zur Rekonstruktion historischer Erfahrungen und Lebensweisen* presents this approach and shows how it cuts across the boundaries of established disciplines. The result is a work of great methodological theoretical and historiographical significance as well as a substantive contribution to German studies. Introduced by Alf Ludtke the volume includes two empirical essays one by Lutz Niethammer on life courses of East Germans after 1945 and one by Ludtke on modes of accepting fascism among German workers. The remaining five essays are theoretical. Hans Medick writes on ethnological ways of knowledge as a challenge to social history. Peter Schöttler on mentalities ideologies and discourses and *alltagsgeschichte*. Dorothee Wierling on gender relations and *alltagsgeschichte*. Wolfgang Kaschuba on popular culture and workers culture as symbolic orders and Harald Dehne on the challenge *alltagsgeschichte* posed for Marxist Leninist historiography in East Germany.

The Luther Myth Patrick Hayden-Roy, 2024-10-31 In the period from the close of the Napoleonic Wars up through the immediate post World War II era the image of Martin Luther was transposed in Germany from a religious reformer and advocate of freedom to a symbol of völkisch nationalist identity such that with the seizure of power by the Nazis Luther was used to portray a symbiosis between the new regime and the tradition of Protestant religiosity. The *Luther Myth* traces the evolution of this image within the environment of nineteenth and twentieth century German nationalist sentiment looking particularly at how Protestant Germans styled Luther to affirm the essentialist racial identity politics of the Nazis the cult of authoritarian leadership around Adolf Hitler the drive to impose state control over all competing sources of authority and the victimizing of German Jews. In doing so it sheds new light on why Nazism was able to co-opt German Protestantism as a source for legitimizing its seizure of power despite the fact that the animating core of Nazi ideology was radically subversive in relation to traditional Christian piety. Using evidence drawn from not only theological works and literary and philosophical sources but also speeches theatrical works public celebrations and monuments it pulls together the narrative of development and connects it over the longer term offering an original contribution to scholarship on the topic and allowing readers a format for considering how similar dynamics are still at work in contemporary society and culture.
