Martyrs' Day Michael Kelly,1993-01-01

Martyrs' Day Michael Kelly,1998-11-17

Martyrs' Day Michael Kelly,1993

A picaresque account of a Middle East odyssey by the journalist whose Gulf War dispatches won both a National Magazine Award and an Overseas Press Club Award Kelly whose reports were printed in The New Republic and The Boston Globe now offers a compelling account of his year in the Gulf

The Reagan Era Doug Rossinow,2015-02-24 In this concise but thorough history of America in the 1980s Doug Rossinow takes the full measure of Ronald Reagan's presidency and the ideology of Reaganism Believers in libertarian economics and a muscular foreign policy Reaganite conservatives in the 1980s achieved impressive success in their efforts to transform American government politics and society ushering in the political and social system Americans inhabit today Rossinow links current trends in economic inequality to the policies and social developments of the Reagan era He reckons with the racial politics of Reaganism and its debt to the backlash generated by the civil rights movement as well as Reaganism's entanglement with the politics of crime and the rise of mass incarceration Rossinow narrates the conflicts that rocked U S foreign policy toward Central America and he explains the role of the recession in the early 1980s in the decline of manufacturing and the growth of a service economy From the widening gender gap to the triumph of yuppies and rap music from Reagan's tax cuts and military buildup to the celebrity of Michael Jackson and Madonna from the era's Wall Street scandals to the successes of Bill Gates and Sam Walton from the first war on terror to the end of the Cold War and the brink of America's first war with Iraq this history lively and readable yet sober and unsparing gives readers vital perspective on a decade that dramatically altered the American landscape

The Fall of Baghdad Jon Lee Anderson,2005-09-27 Reminiscent of the best war literature such as John Hersey's Hiroshima Michael Herr's Dispatches and Michael Kelly's Martyr's Day The Washington Post The Fall of Baghdad is a masterpiece of literary reportage about the experience of ordinary Iraqis living through the endgame of the Saddam Hussein regime its violent fall and the troubled American occupation In channeling a tragedy of epic dimensions through the stories of real people caught up in the whirlwind of history Jon Lee Anderson has written a book of timeless significance

Professional Journal of the United States Army ,1993-11

Body Horror John Taylor,1998-09 What compels us to look at shocking photographs or alternatively to look away Should the media use disturbing images to inform at the risk of offending How is our sense of politics morality and culture affected when we are exposed to gruesome images of accidents and disasters murder and execution grief and death In Body Horror John Taylor addresses these questions by examining how the media presents unsettling pictures especially those of dead and injured foreigners Drawing on recent experiences in the Gulf Bosnia and Rwanda Taylor argues that documentary photography for all the horror it reproduces ultimately defines a democracy Fully aware of the voyeuristic aspects of photojournalism Taylor probes the difficulty of applying moral imperatives when separating the utility of showing images of suffering and violence from the risk of either insulting or gratifying public

sensibilities A compelling documentary of photography's cultural and political power Body Horror analyzes the moral responsibility attached to publishing and bearing witness to photographs of violence and the historical amnesia that arises when such imagery remains unseen **Military Review**, 1993-07 **Iraq** Heather Bleaney, Roper, Peter Sluglett, 2004-06-01 Well considered answers to the many questions raised by the situation in Iraq past and present are rare This first comprehensive thematically organised bibliography devoted to Iraq is based on the full Index Islamicus database and is drawn from a wide variety of European language journals and books Featuring an extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources The editors have taken care to add much new material to bring its coverage up to date and supplement the previously published volumes while the most important and or influential publications are conveniently highlighted in the introduction An indispensable gateway for all those with a more than superficial interest in what is and what has been happening in this nation so much the focus of attention today **The Military and the Press** Michael S. Sweeney, 2006-08-14 Because news is a weapon of war affecting public opinion troop morale even strategy for more than a century America's wartime officials have sought to control or influence the press most recently by embedding reporters within military units in Iraq This second front where press freedom and military imperatives often do battle is the territory explored in *The Military and the Press* a history of how press military relations have evolved during the twentieth and twenty first century in response to the demands of politics economics technology and legal and social forces Author Michael S Sweeney takes a chronological approach considering freedoms and restraints such as the First Amendment court decisions and government and military directives that have affected the press during World Wars I and II the Korean War the Vietnam War and the more recent conflicts He explores the ongoing themes of wartime censorship and propaganda as well as operational security in the battle zone In chapters addressing the recent shift in military strategy in dealing with the press Sweeney discusses new forms of control from embedding journalists and discouraging unaccredited unilaterals to developing the news agenda through a barrage of briefings sound bites and visuals and appeals to patriotism that border on domestic propaganda With profiles of a few specific journalists from Richard Harding Davis covering the Spanish American War to Christiane Amanpour reporting from the conflicts in Bosnia and Iraq this deft blend of journalistic history and analysis should serve as a call to arms to a public not always well served by a military press standoff
