Marx En Jeu:

Marx en jeu Jacques Derrida, Marc Guillaume, 1997 Que signifie un travail de deuil d'un deuil politique et métapolitique quand la terre entière se met à rappeler par la bouche des politiciens dans la rhétorique médiatique que Marx est mort que le communisme est mort que le modèle de marché capitaliste est le seul modèle Il ne s'agit pas contrairement ce qu'on dit d'un retour Marx Marx est mort on le sait Il ne s'agit pas non plus d'appliquer de répéter de réappliquer tel ou tel thème de Marx l'économie encore qu'il y ait beaucoup à apprendre de lui mais de se rappeler une certaine façon une certaine manière de ne pas s'en laisser conter au sujet du capital et de voir ce qui se passe aujourd'hui de nouveau d'indiquer le théâtre d'indication du capital d'aujourd'hui The Event of the Thing Michael Marder, 2011-04-19 Jacques Derrida's writings often embed the key themes of deconstruction in a notion of the thing The Event of the Thing is the most complete examination to date of Derrida's understanding of thinghood and its crucial role in psychoanalysis ethics literary theory aesthetics and Marxism Arguing that the thing as a figure of otherness destabilizes the metaphysical edifice it underlies Michael Marder reveals the contributions it makes to critiques of humanism and idealism Subsequently the new realism that emerges from deconstruction holds the possibility of an event that problematizes all attempts to objectify the thing An illuminating analysis of Derrida and phenomenology The Event of the Thing is an innovative and compelling study of a crucial aspect of one of the twentieth century's greatest thinkers **Solidarities with the Non/Human, or, Posthumanism in Literature** Stefan Herbrechter, 2024-11-18 This volume collects essays written over the last decade by one of the founders and leading figures of the theoretical movement of critical posthumanism The readings of literary texts gathered here from Shakespeare Keats Camus Vittorini Kundera Haushofer Atwood Eagleman Crace and DeLillo focus on posthumanist moments in which questions of postanthropocentrism and the nonhuman become prominent are negotiated and ultimately foreclosed They show how a deconstructively minded way of reading humanistically motivated texts can help making these texts relevant for our so-called posthuman times In doing so these critical posthumanist readings demonstrate that literature remains one of the privileged cultural institutions and practices from which solidarities both with and between the human and nonhuman can be formed and negotiated **Organization Theory and Postmodern Thought** Stephen Linstead, 2004 Focuses on a major philosopher who has had or should have a major influence on organization theory *Thinking Out of Sight* Jacques Derrida, 2024-05-31 Jacques Derrida remains a leading voice of philosophy his works still resonating today and for more than three decades one of the main sites of Derridean deconstruction has been the arts Collecting nineteen texts spanning from 1979 to 2004 *Thinking out of Sight* brings to light Derrida's most inventive ideas about the making of visual artworks The book is divided into three sections The first demonstrates Derrida's preoccupation with visibility image and space The second contains interviews and collaborations with artists on topics ranging from the politics of color to the components of painting Finally the book delves into Derrida's writings on photography video cinema and theater ending with a text published just

before his death about his complex relationship to his own image With many texts appearing for the first time in English Thinking out of Sight helps us better understand the critique of representation and visibility throughout Derrida's work and most importantly to assess the significance of his insights about art and its commentary *Karl Marx* Shlomo Avineri, 2019-08-06 From the prizewinning Jewish Lives series a new exploration of Karl Marx's life through his intellectual contributions to modern thought Karl Marx 1818-1883 philosopher historian sociologist economist current affairs journalist and editor was one of the most influential and revolutionary thinkers of modern history but he is rarely thought of as a Jewish thinker and his Jewish background is either overlooked or misrepresented Here distinguished scholar Shlomo Avineri argues that Marx's Jewish origins did leave a significant impression on his work Marx was born in Trier then part of Prussia and his family had enjoyed equal rights and emancipation under earlier French control of the area But then its annexation to Prussia deprived the Jewish population of its equal rights These developments led to the reluctant conversion of Marx's father and similar tribulations radicalized many young intellectuals of that time who came from a Jewish background Avineri puts Marx's Jewish background in its proper and balanced perspective and traces Marx's intellectual development in light of the historical intellectual and political contexts in which he lived About Jewish Lives Jewish Lives is a prizewinning series of interpretative biography designed to explore the many facets of Jewish identity Individual volumes illuminate the imprint of Jewish figures upon literature religion philosophy politics cultural and economic life and the arts and sciences Subjects are paired with authors to elicit lively deeply informed books that explore the range and depth of the Jewish experience from antiquity to the present In 2014 the Jewish Book Council named Jewish Lives the winner of its Jewish Book of the Year Award the first series ever to receive this award More praise for Jewish Lives Excellent New York Times Exemplary Wall St Journal Distinguished New Yorker Superb The Guardian **Karl Marx's Theory of Revolution Vol. II** Hal Draper, 1978 This is the second installment of Hal Draper's incomparable treatment of Marx's political theory policy and practice In forceful and readable language Draper ranges through the development of the thought of Marx and Engels on the role of classes in society This series Karl Marx's Theory of Revolution represents an exhaustive and definitive treatment of Marx's political theory policy and practice Marx and Engels paid continuing attention to a host of problems of revolution in addition to constructing their grand theory All these political and social analyses are brought together in these volumes as the author draws not only on the original writings of Marx and Engels but also on the sources that they used in formulating their ideas and the many commentaries on their published work Draper's series is a massive and immensely valuable scholarly undertaking The bibliography alone will stand as a rich resource for years to come Yet despite the scholarly treatment the writing is direct forceful and unpedantic throughout and will appeal to the beginning student as much as the advanced reader **Plastic Materialities** Brenna Bhandar, Jonathan Goldberg-Hiller, 2015-04-25 Catherine Malabou's concept of plasticity has influenced and inspired scholars from across disciplines The contributors to Plastic Materialities whose fields

include political philosophy critical legal studies social theory literature and philosophy use Malabou's innovative combination of post structuralism and neuroscience to evaluate the political implications of her work They address among other things subjectivity science war the malleability of sexuality neoliberalism and economic theory indigenous and racial politics and the relationship between the human and non human Plastic Materialities also includes three essays by Malabou and an interview with her all of which bring her work into conversation with issues of sovereignty justice and social order for the first time Contributors Brenna Bhandar Silvana Carotenuto Jonathan Goldberg Hiller Jairus Victor Grove Catherine Kellogg Catherine Malabou Renisa Mawani Fred Moten Alain Pottage Michael J Shapiro Alberto Toscano

After the Deluge François Dosse, 2004-11-17 Madame de Pompadour's famous quip 'Après nous le déluge' serves as fitting inspiration for this lively discussion of postwar French intellectual and cultural life Over the past thirty years North American and European scholarship has been significantly transformed by the absorption of poststructuralist and postmodernist theories from French thinkers But Julian Bourg's seamlessly edited volume proves that historically speaking French intellectual and cultural life since World War Two has involved much more than a few infamous figures and concepts Motivated by a desire to narrate and contextualize the deluge of French theory *After the Deluge* showcases recent work by today's brightest scholars of French intellectual history that historicizes key debates figures and turning points in the postwar era of French thought Relying on primary and archival sources contributors examine among other themes left wing critiques of the Left the internationalizing of thought the institutional and affective conditions of cultural life and the religious imagination They revive neglected debates and figures and they explore the larger impact of political quarrels In an afterword preeminent French historian François Dosse heralds the arrival of a new generation a historiographical sensibility that brings fresh original perspectives and a passion for French history to the contemporary French intellectual arena *After the Deluge* adds significant depth and breadth to our understanding of postwar French intellectual and cultural history

Apparitions--of Derrida's Other Kas Saghaei, 2010 How does Derrida write of and on the other *Apparitions* examines exemplary instances of the relation to the other the relation of Moses to God Derrida's friendship with Jean-Luc Nancy Derrida's relation to a recently departed actress caught on video to demonstrate how Derrida forces us to reconceive who or what the other may be For Derrida the singularity of the other includes not only the formal or logical sense of alterity the otherness of the human other but also the otherness of the nonliving the no longer living or the not yet alive Addressing Derrida's readings of Husserl Levinas Barthes Blanchot and Nancy this book explores the apparitions of the other by attending to the mode of appearing the phenomenality and visibility of the other The book also demonstrates that video and photography display an intimate relation to spectrality as well as a structural relation to the absolute singularity of the other
