Marx Betty Matthews,1983 *Marx, a Hundred Years on* Betty Matthews,1983 *Handbook of Sociological Theory* Jonathan H. Turner,2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing Section VI Theorizing on Power Conflict and Change Section VII Theorizing from Assumptions of Rationality This handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory *Marx@2000* Ronaldo Munck,2002 Marx is out of fashion in intellectual circles but he is seen as an astute and relevant guide to the spread of a new raw capitalism world wide This book is a reappraisal of Marx and the socialist experience in light of political developments **ThirdWay** ,1983-06 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture **Selected Writings on Marxism** Stuart Hall,2021-03-22 Throughout his career Stuart Hall engaged with Marxism in varying ways actively rethinking it to address the political and cultural exigencies of the moment This collection of Hall's key writings on Marxism surveys the questions central to his interpretations of and investments in Marxist theory and practice It includes Hall's readings of canonical texts by Marx and Engels Gramsci and Althusser his exchanges with other prominent thinkers about Marxism his use of Marxist frameworks to theorize specific cultural phenomena and discourses and some of his later work in which he distanced himself from his earlier attachments to Marxism In addition editor Gregor McLennan's introduction and commentary offer in depth context and fresh interpretations of Hall's thought **Selected Writings on Marxism** demonstrates that grasping Hall's complex relationship to Marxism is central to understanding the corpus of his work

The One-Hundred-Year Contest David Wen Zhong,2023-08-16 Zhong's latest book *The One Hundred Year Contest Can America Defeat Communism* is an account of America's encounters with communism after its rise and the history of its frequent failures America's encounter with communist headwinds began with the founding of the Soviet Union In 1921 the

Chinese Communist Party was founded and communist forces expanded into China Successive presidents of the United States were ambiguous and vague in their understanding of the Chinese Communist Party which led to the gradual expansion of communist power It has been over 100 years since the Bolsheviks second revolution in Russia in 1917 when Lenin seized power The United States founded on democracy and freedom to fight against communism is to blame for its misjudgment which has led to a wave of communism that is still going strong today Why did communism bring such a profound disaster to humankind Looking at it from a historical perspective Zhong Wen presents the contest between the United States and communism over the past 100 years so that people can recognize the nature of communism Today China and the United States have entered the nuclear age The results of nuclear war cannot be compared to the disasters brought to humankind by the Cold War and the hot wars

Time, Labor, and Social Domination Moishe Postone, 1996 Moishe Postone undertakes a fundamental reinterpretation of Karl Marx's mature critical theory He calls into question many of the presuppositions of traditional Marxist analyses and offers new interpretations of Marx's central arguments He does so by developing concepts aimed at grasping the essential character and historical development of modern society and also at overcoming the familiar dichotomies of structure and action meaning and material life These concepts lead him to an original analysis of the nature and problems of capitalism and provide the basis for a critique of actually existing socialism According to this new interpretation Marx identifies the core of the capitalist system with an impersonal form of social domination generated by labor and the industrial production process are characterized as expressions of domination generated by labor itself and not simply with market mechanisms and private property Proletarian labor and the industrial production process are characterized as expressions of domination rather than as means of human emancipation This reinterpretation entails the form of economic growth and the structure of social labor in modern society to the alienation and domination at the heart of capitalism This reformulation Postone argues provides the foundation for a critical social theory that is more adequate to late twentieth century capitalism

When Marx Mattered Harold J. Bershad, 2014-06-15 A beautifully written trenchant and moving memoir When Marx Mattered follows Harold J Bershad's odyssey from childhood through his coming of intellectual age The wounds and pleasures of his childhood include fear of Nazis poverty the joys and constraints of Jewishness his caring family and love of music and the confusion surrounding World War II In this book Bershad describes his teenage encounter with Marxism and how it provided some understanding of the world and hope for peace Bershad gives us a serious portrayal of the evolution of scholarly judgment but also a social history of the second half of the twentieth century refracted through the author's own experiences in which Jewish Americans played an important but under appreciated part Along the way the author corrects the misapprehension that Jewish or non Jewish American political radicals only evolve into conservatives Through his own mistakes and hard won lessons Bershad shows the power importance and morality that intellectual standards play in enabling an intellectual to achieve sound and

fair judgments Bershadsky firmly believes that his achievements in the social sciences are grounded in the fact that he also studied philosophy literature and history all of which immeasurably deepened his understanding of social life The generational portrait in this book is both an homage to those who preceded him and a hope for educational broadening of social science in the generation to come
