rooted in solidarity and justice it remains a cornerstone of political philosophy and socialist thought The Cambridge Companion to The Communist Manifesto Terrell Carver, James Farr, 2015-09-09 Offers the latest contextual and biographical scholarship with innovative interpretations and is supplemented by the first and latest English translations **Karl Marx's Theory of Revolution Vol. II** Hal Draper, 1978 This is the second installment of Hal Draper's incomparable treatment of Marx's political theory policy and practice In forceful and readable language Draper ranges through the development of the thought of Marx and Engels on the role of classes in society This series Karl Marx's Theory of Revolution represents an exhaustive and definitive treatment of Marx's political theory policy and practice Marx and Engels paid continuing attention to a host of problems of revolution in addition to constructing their grand theory All these political and social analyses are brought together in these volumes as the author draws not only on the original writings of Marx and Engels but also on the sources that they used in formulating their ideas and the many commentaries on their published work Draper's series is a massive and immensely valuable scholarly undertaking The bibliography alone will stand as a rich resource for years to come Yet despite the scholarly treatment the writing is direct forceful and unpedantic throughout and will appeal to the beginning student as much as the advanced reader , Bad Modernisms Douglas Mao, Rebecca L. The Communist Manifesto in the Revolutionary Politics of 1848 David Ireland, 2022-08-08 This book examines why on the eve of the pamphlet's 175th anniversary the Communist Manifesto left so faint an imprint on Europe's most revolutionary year of 1848 when it has had such a huge impact on posterity The Manifesto that year misread bourgeois intentions put too much faith in the industrial proletariat too little in peasants too much emphasis on the German states and none on England Marx and Engels preferred in 1848 to focus on the middle class Neue Rheinische Zeitung declining to galvanise working class groups whose leadership they had actively sought They neglected to return swiftly to the German states in their crucial 1848 March days The Manifesto's programme barely overlapped with contemporary campaigners or comparative pamphleteers or the replacement Demands of the Communist Party in Germany The book considers the consequences of Marx opting to write the Manifesto alone in January 1848 It also questions the source and significance of the pamphlet's most memorialised phrase the spectre of Communism whether it was written for the working men of all countries addressed in its finale and whether Marx and Engels regarded the Manifesto as highly in 1848 as they undoubtedly did in later life

The History of Italian Marxism Paolo Favilli, 2016-08-15 In *The History of Italian Marxism* Paolo Favilli offers an articulated analysis of the different levels at which Marx's ideas and Marxism as a doctrinal system were received in Italy from the time of the First International up till the eve of the First World War Rejecting any linear understanding of the relation between Marx's texts and the assumption of Marxism as the ideology of the burgeoning workers movement Favilli

explores the growth of different forms of Marxist culture through the period of the Paris Commune the late nineteenth century debate on revisionism and the rise of revolutionary syndicalism Asking in each case whether Marxism meant a science an ideology a way of doing politics a utopia a myth or a religion Favilli goes on to assess which of these Marxisms died with and which have survived the crisis at the end of the twentieth century With a new preface to the English edition First published in Italian as *Storia del marxismo italiano dalle origini alla grande guerra* FrancoAngeli s r l Milan 1996
