[A History of Marxian Economics: 1883-1929](#) Michael Charles Howard,John Edward King,1989 The first volume of this critical history covers the social political and theoretical forces behind the development of Marxian economics from Marx s death in 1883 until 1929 the year marking the onset of Stalin s revolution from above which subsequently transformed the Soviet Union into a modern superpower During these years Marxists in both Russia and

Germany found their economic ideas inextricably linked with practical political problems and treated theory as a guide to action This book systematically examines the important theoretical literature of the period including insightful works by political functionaries outside academia journalists party organizers underground activists and teachers in the labor movement presented here as the primary forgers of Marxian economic thought Beginning with Engels s writings this book analyzes the work of leading Marxist economists in the Second International then concludes with a review of the intellectual movements within the Marxian political economy during the 1920s A second volume treating the period from 1929 to the present will follow Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These paperback editions preserve the original texts of these important books while presenting them in durable paperback editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905     *Karl Marx's Economics* John Cunningham Wood,2004-11     *A History of Marxian Economics: 1929-1990* Michael Charles Howard,John Edward King,1989 Annotation This second volume of the highly successful *A History of Marxian Economics* covers the period from 1929 to the present The main debates and themes of this period are the Great Depression and Stalinism the Long Boom and its Demise New Theories of Imperialism Value and Exploitation and Current Controversies As with the first volume Michael Howard and John King have written an authoritative and stimulating account of the history of Marxian Economics over this period     **Marxian Economics: A Reappraisal** Riccardo Bellofiore,1998-01-15 Springing from a conference held in Bergamo University on the occasion of the centenary of the publication by Engels of the third book of *Capital* the papers collected in these two volumes reinstate Marx s as the first genuinely evolutionary economic theory In this the capitalist process incessantly brings about states which will by themselves generate the next ones Thus as Schumpeter remarked Marx was the first to visualise what even at the present time is still the economic theory of the future for which we are slowly and laboriously accumulating stone and mortar statistical facts and functional equations
