Marxian Christian Utopianism:

Marxian and Christian Utopianism John Joseph Marsden, 1991 Marxism, Revolution and Utopia Herbert Marcuse, 2014-03-26 This collection assembles some of Herbert Marcuse's most important work and presents for the first time his responses to and development of classic Marxist approaches to revolution and utopia as well as his own theoretical and political perspectives This sixth and final volume of Marcuse's collected papers shows Marcuse's rejection of the prevailing twentieth century Marxist theory and socialist practice which he saw as inadequate for a thorough critique of Western and Soviet bureaucracy and the development of his revolutionary thought towards a critique of the consumer society Marcuse's later philosophical perspectives on technology ecology and human emancipation sat at odds with many of the classic tenets of Marx's materialist dialectic which placed the working class as the central agent of change in capitalist societies As the material from this volume shows Marcuse was not only a theorist of Marxist thought and practice in the twentieth century but also proves to be an essential thinker for understanding the neoliberal phase of capitalism and resistance in the twenty first century A comprehensive introduction by Douglas Kellner and Clayton Pierce places Marcuse's philosophy in the context of his engagement with the main currents of twentieth century philosophy while also providing important analyses of his anticipatory theorization of capitalist development through a neoliberal restructuring of society The volume concludes with an afterword by Peter Marcuse Marx, Marxism and Utopia Darren Webb, 2019-07-30 This title was first published in 2000 This engaging book suggests that Marx was right to reject utopian socialism on the grounds that it undermined the principles of proletarian self emancipation and self determination As a theoretician of the proletarian class Marx sought to capture the spirit of revolution in a manner which precluded the need for utopian philanthropy and the messianic elitism which invariably accompanied it In a powerful and original central argument the book suggests that the categories which together define Marx's own utopia were nothing more than theoretical by products of the models employed by Marx in order to supersede the need for utopianism As such Marx was an accidental utopian Rather than legitimating utopianism however the author argues that this conclusion reinforces the need to develop Marx's anti utopian project further Emphasising the contemporary relevance of Marx's original critique the conclusion suggests that the future of socialism lies in its ability to harness not the spirit of utopia but the spirit of adventure *Marx, Lenin, and the Revolutionary Experience* Paul LeBlanc, 2014-06-03 *Marx Lenin and the Revolutionary Experience* offers a fresh look at Communism both the bad and good and also touches on anarchism Christian theory conservatism liberalism Marxism and more to argue for the enduring relevance of Karl Marx and V I Lenin as democratic revolutionaries It examines the Red Decade of the 1930s and the civil rights movement and the New Left of the 1960s in the United States as well Studying the past to grapple with issues of war and terrorism exploitation hunger ecological crisis and trends toward deadening de spiritualization the book shows how the revolutionaries of the past are still relevant to today's struggles It offers a clearly written and carefully reasoned thematic

discussion of globalization Marxism Christianity and religion in general Communism the history of the USSR and US radical and social movements *World Christianity and Marxism* Denis Janz,1998 All the diverse philosophical and political manifestations of Marxism were ultimately rooted in Marx s thought and supporters based their greater or lesser hostilities toward Christianity on their reading of his critique Janz follows this with an overview of Christian responses to Marx extending from the mid 19th century to the onset of the Cold War **The Westminster Dictionary of Christian Theology** Alan Richardson,John Bowden,1983-01-01 The Westminster Dictionary of Christian Theology is an important reference for any pastor scholar or student of theology The articles are clearly written historically informative and conceptually clarifying The entries are arranged alphabetically for ease of use **The Annihilation of Hell** Nicholas Ansell,2014-07-08 This work analyses and evaluates Jurgen Moltmann s model of universal salvation and its relation to his understanding of the redemption or eschatological fulfilment of time For Jurgen Moltmann Hell is the nemesis of Hope The Annihilation of Hell thus refers both to Hell s annihilative power in history and to the overcoming of that power as envisioned by Moltmann s distinctive theology of the cross in which God becomes all in all through Christ s descent into Godforsakenness The negation of Hell and the fulfilment of history are inseparable Attentive to the overall contours and dynamics of Moltmann s thinking especially his zimzum doctrine of creation his eschatologically oriented philosophy of time and his expanded understanding of the nature grace relationship this study asks whether the universal salvation that he proposes can honour human freedom promise vindication for those who suffer and do justice to biblical revelation As well as providing an in depth exposition of Moltmann s ideas The Annihilation of Hell also explores how a covenantal universalism might revitalise our web of beliefs in a way that is attuned to the authorising of Scripture and the spirituality of existence If divine and human freedom are to be reconciled as Moltmann believes the confrontation between Hell and hope will entail rethinking issues that are not only at the centre of theology but at the heart of life itself **Christianity and Culture** Santosh Thomas,2005 *Utopia and Revolution* Melvin Lasky,2018-04-17 The most comprehensive study of ideology and utopia since Karl Mannheim s work of the 1930s Utopia and Revolution can be understood as turning classical political theory on its head or perhaps inside out Instead of the usual summary of how English radical theologies contributed to the revolutionary process Lasky shows how such political theology of the mid seventeenth century became the backbone of the natural history of revolutionary disasters In a remarkable feat of scholarship in intellectual history Lasky charts the course of this historic entanglement over some five turbulent centuries of Western history In so doing he traces the ideological extension of the human personality through the writings of political theorists philosophers poets and historians *An Introduction to Liberation Theology* J. David Turner,1994 Liberation theology is one of the most influential theologies of the twentieth century in its attempt to ground social economic political and religious structures with Jesus second commandment to love your neighbor as yourself In this introductory text Turner explains Liberation Theologians fight for democratic socialism demands for radical economic
