About A History of Western Philosophy of Education An essential resource for researchers scholars and students of education this five volume set that traces the development of philosophy of education through Western culture and history Focusing on philosophers who have theorized education and its implementation the series constitutes a fresh dynamic and developing view of educational philosophy It expands our educational possibilities by reinvigorating philosophy s vibrant critical tradition connecting old and new perspectives and identifying the continuity of critique and reconstruction It also includes a timeline showing major historical events including educational initiatives and the publication of noteworthy philosophical

works *Critical Voices on Special Education* Scott B. Sigmon,1990-01-01 The authors of this work address special education s most pressing concern the inappropriate placement into special education programs of millions of students who fall behind or do not conform well enough to the academic or behavioral standards of today s public schools Too often these students are misdiagnosed as mildly handicapped and are presumed to have some physical or sensory disability In fact this formal labeling practice may carry consequences that are not only self defeating and potentially ruinous for the stigmatized individual pupil but also ultimately threatening to society as a whole The book includes contemporary discussions about needed institutional change the shortcomings of practice currently in vogue and related to the education of the so called mildly handicapped and an appeal for new attitudes toward children that recognizes them as individual learners The authors offer a unique combination of practical solutions to help set the course for more humane efficacious educational practice with students who have difficulty learning They discuss preplacement interventions such as teaching learning strategies effective short term counseling and new ways to assess reading for instructional rather than special placement purposes Study. Power And The University Mann, Sarah,2008-11-01 This book highlights the effects of power within the higher educational process and argues that in order to understand the student experience we have to take seriously the institution as a context for learning **Karl Marx and Friedrich Engels (RLE Marxism)** Cecil L. Eubanks,2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels Children and Media in India Shakuntala Banaji,2017-05-18 Is the bicycle like the loudspeaker a medium of communication in India Do Indian children need trade unions as much as they need schools What would you do with a mobile phone if all your friends were playing tag in the rain or watching Indian Idol Children and Media in India illuminates the experiences practices and contexts in which children and young people in diverse locations across India encounter make or make meaning from media in the course of their everyday lives From textbooks television film and comics to mobile phones and digital games this book examines the media available to different socioeconomic groups of children in India and their articulation with everyday cultures and routines An authoritative overview of theories and discussions about childhood agency social class caste and gender in India is followed by an analysis of films and television representations of childhood informed by qualitative interview data collected between 2005 and 2015 in urban small town and rural contexts with children aged nine to 17 The analysis uncovers and challenges widely held assumptions about the relationships among factors including sociocultural location media content and technologies and children s labour and agency The analysis casts doubt on undifferentiated claims about how new technologies affect endanger and or empower pointing instead to the importance of social class and caste in mediating

relationships among children young people and the poor The analysis of children s narratives of daily work education caring and leisure supports the conclusion that although unrecognised and underrepresented subaltern children s agency and resourceful conservation makes a significant contribution to economic interpretive and social reproduction in India

Radical Philosophy ,1994 *Educational Attainment and Society* Nigel Kettley,2007-01-15 Sophisticated monograph focussing on attainment at the end of secondary high school education and the interface with tertiary education Combines re analysis of secondary literature including official statistics institutional histories interview data and analysis of qualitative and quantitative primary research using descriptive and inferential statistics value added analysis and grounded theory The results show the significance and weakness of both the mid twentieth century classic analyses of social class and the late twentieth century feminist approaches Shows how a joint consideration of social issues in particular of gender and social stratification produce a powerful model for explaining attainment with important implications for policy on a boys underachievement and b participation in higher education **Research Communications in Psychology, Psychiatry, and Behavior** ,1985
