Marxism In China:

Marxism in China Shaozhi Su, Ken Coates, Richard Silburn, 1983 *Li Da And Marxist Philosophy In China* Nick Knight, 2018-02-23 Scholars of Marxism will be in Nick Knight's debt for this pioneering study of one of the most important figures in the development of Marxism in China. Knight makes an important case about the relationship of Chinese Marxist thought to Marxist thought in general with particular attention to Soviet Marxism. The book makes available to readers not just important texts of Chinese Marxism but a whole series of texts of Marxism that were crucial to the political discourse of the thirties. Knight displays impressive erudition and command of these texts. In spite of the strong case he makes for his thesis, he retains throughout an admirable critical self-awareness that enhances the plausibility of his argument. Arif Dirlik, Duke University

How to Localize Marxism in China Guo Jianning, 2022-12-30 This book explores frontier issues concerning the localization of Marxism in China by examining historical processes, cultural implications, and contemporary perspectives on this process of indigenization. Emerging in the 1840s in Germany, Marxism has evolved from a German European and Western idea into a Chinese Asian and Eastern one. This title seeks to answer the question of how Marxism has been adapted to the Chinese context and how it migrated to the regions. The first three chapters chart the history of the dissemination of Marxism to adapt to Chinese conditions across three periods: revolutionary times before 1949, the period of socialist construction after 1949, and the reform and opening up since 1978. The subsequent two chapters analyze the experience of the development of socialism with Chinese characteristics, featuring synergistic integration with traditional Chinese culture and the combining of the basic principles of Marxism and China's real-life situation. The final chapter advances suggestions on how to further promote the localization of Marxism and how to develop contemporary Chinese Marxism faced with new historical conditions. The book will appeal to scholars, students, and general readers interested in contemporary Marxism, Marxism in China, and contemporary Chinese history, politics, and society.

Communism in China, 1965 **China And The Crisis Of Marxism-leninism** Franz Michael, 2019-04-11 Is the failure of communism in China inevitable? So argue the authors of *China and the Crisis of Marxism-Leninism*, who believe that Mao's programs were utopian fantasies that greatly aggravated the incurable flaws of the Stalinist order now eroding worldwide. At the time of the death of Mao Zedong in 1976, China was in a state of disarray, and the

Marxism and the Making of China J. Gregor, 2014-02-19 An assessment of the influence of the Marxism of Karl Marx and Friedrich Engels on revolutionary developments in China. The work covers the period from the first appearance of the Chinese Communist Party under Mao Zedong until its full transformation by Deng Xiaoping into a nationalist developmental single party developmental dictatorship.

Marxist Philosophy in China : From Qu Qiubai to Mao Zedong, 1923-1945 Nick Knight, 2006-01-01 This book recounts the history of Marxist philosophy in China between 1923 and 1945 through the writings and activities of four philosophers: Qu Qiubai, Ai Siqi, Li Da, and Mao Zedong. Two of these philosophers, Qu and Mao, were also political activists and leaders, but their

contribution to this history is as important if not more so than the contribution of Ai and Li who were predominantly philosophers and scholars. The inclusion of Qu and Mao underlines the intimate connection between philosophy and politics in the revolutionary movement in China. It is not possible to speak credibly of Marxist philosophy in China without considering the political context within which its introduction, elaboration and dissemination proceeded. Indeed each of the philosophers considered in this book repudiated the notion that the study of philosophy was a scholastic intellectual exercise devoid of political significance. Each of these philosophers regarded himself as a revolutionary and considered philosophy to be useful precisely because it could facilitate a comprehension of the world and so accelerate efforts to change it. By the same token each of these philosophers took philosophy seriously; each bent his mind to the daunting task of mastering the arcane and labyrinthian philosophical system of dialectical materialism. Philosophy might well be political, they believed, but this was no excuse for philosophical dilettantism.

Marxism in the Chinese Revolution Arif Dirlik, 2005-06-07. Representing a lifetime of research and writing by noted historian Arif Dirlik, the essays collected here explore developments in Chinese socialism and the issues that have occupied historians of the Chinese revolution for the past three decades. Dirlik engages Chinese socialism critically but with sympathy for the aspirations of revolutionaries who found the hope of social, political and cultural liberation in Communist alternatives to capitalism and the intellectual inspiration to realize their hopes in Marxist theory. The book's historical approach to Marxist theory emphasizes its global relevance while avoiding dogmatic and Eurocentric limitations. These incisive essays range from the origins of socialism in the early twentieth century through the victory of the Communists in mid-century to the virtual abandonment by century's end of any pretense to a socialist revolutionary project by the leadership of the Chinese Communist Party. All that remains of the revolution in historical hindsight are memories of its failures and misdeeds, but Dirlik retains a critical perspective not just toward the past but also toward the ideological hegemonies of the present. Taken together, his writings reaffirm the centrality of the revolution to modern Chinese history. They also illuminate the fundamental importance of Marxism to grasping the flaws of capitalist modernity despite the fact that in the end the socialist response was unable to transcend the social and ideological horizons of capitalism.

The China Path and its Original Meaning Han Qingxiang, 2023-12-19. This book examines the fundamental issues of Marxism in the 21st century and explores its contributions through the explanatory framework of the unity of continuity and stages, spatial and temporal analysis and the dialectical relationship of universality and particularity of Marxist historical development. Marxism in the 21st century is a concept closely related to the historical changes of capitalism and the historical shift of the center of the socialist movement. Marxism in the 21st century should be developed on the basis of the continuation of the fundamental position, value orientation, ideals and beliefs, basic principles and methodological principles of Marxism. This book explores the logic of the development of modernization in contemporary China and the world, the communication and interaction between contemporary China and the world and the coexistence of socialism and

capitalism It also examines the relationship between the adaptation of Marxism to the Chinese context Marxism in contemporary China and Marxism in the 21st century The book also discusses Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era which provides a scientific theoretical system for interpreting the contemporary world and could become the core theoretical form of Marxism in the 21st century The book will be essential reading for students and scholars of Marxism Chinese studies and modernization theory

A Place In The Sun A. James Gregor, 2019-04-16 China has endured a century of turmoil beginning with the anti dynastic revolution associated with Sun Yat Sen through the military and tutelary rule of Chiang Kai shek the revolutionary regime of Mao Zedong and the radical reforms of Deng Xiaoping China has had little respite Historians and social scientists have attempted to understand some of this history as being the consequence of the impact of European ideologies including Marxism Marxism Leninism and Fascism Rarely instructive or persuasive the discussions regarding this issue have more often than not led to puzzlement rather than enlightenment In *A Place in the Sun* A James Gregor offers an interpretation of the role of European Marxist and Fascist ideas on China s revolutionaries that is both original and based on a lifetime of scholarship devoted to revolutionary ideologies Gregor renders a detailed analysis of their respective influence on major protagonists In the exposition Gregor reveals an unsuspected and complex set of relationships between the Chinese revolution and essentially European ideologies His discussion concludes with a number of estimations that suggest implications for the future of modern China and its relationship with the advanced industrial democracies How post Dengist China the world s most populous nation is to be understood remains uncertain to most comparativists and historians Gregor provides one well supported alternative and he is carefully attentive to the implications of this alternative
