

**MARXISM
& THE
STATUS OF
PHILOSOPHY**

Georges Labica

Marxism The Status Of Philosophy

Ulf Schulenberg

Marxism The Status Of Philosophy:

Marxism and the Status of Philosophy Georges Labica, 1980 *Marx and Critical Theory* Emmanuel Renault, 2018-08-13 Marx and Critical Theory examines Marx's main philosophical, political, and social theoretical ideas. Its purpose is twofold: making sense of the concepts and theses of Marx and showing that they remain relevant for contemporary critical theory. Part One focuses on Marx's conception of philosophy. Part Two analyses the Marxian primacy of the practical. Part Three is devoted to Capital and the critique of political economy. This book will be useful for those who want to deepen their understanding of Marx's main ideas as well as for those who want to clarify what is at stake in contemporary debates about the ways in which contemporary critical theory could or should refer to Marx. **Marxism and Christianity** Alasdair MacIntyre, 1984-03-15 Contending that Marxism achieved its unique position in part by adopting the content and functions of Christianity, MacIntyre details the religious attitudes and modes of belief that appear in Marxist doctrine as it developed historically from the philosophies of Hegel and Feuerbach and as it has been carried on by latter-day interpreters from Rosa Luxemburg and Trotsky to Kautsky and Lukacs. The result is a lucid exposition of Marxism and an incisive account of its persistence and continuing importance. **Marx's Proletariat (RLE Marxism)** David W. Lovell, 2015-04-24 George Orwell wrote in *Nineteen Eighty-Four* that if there is hope, it lies in the proles. A century earlier, Marx was unequivocal: the future belonged to the proletariat. Today, such confidence might seem misplaced. The proletariat has not yet fulfilled Marx's expectations and seems unlikely ever to do so. How could Marx have entertained the notion that the proletariat would emancipate humanity from capitalism and from class rule itself? This book, first published in 1988, attempts an explanation by examining the sources and development of Marx's concept of the proletariat. It contends that this was not only a crucial element in Marx's theory but a significant departure in socialist thought. By examining this concept in detail, the book uncovers a major contradiction in Marxian thought: although the proletariat is assigned a momentous task, it is chiefly depicted as the class of suffering, which is why historically it has preferred security to enterprise. **The SAGE Handbook of Marxism** Beverley Skeggs, Sara R. Farris, Alberto Toscano, Svenja Bromberg, 2021-11-17 The past decade has witnessed a resurgence of interest in Marxism both within and without the academy. Marxian frameworks, concepts, and categories continue to be narratively relevant to the features and events of contemporary capitalism. Most crucially, an attention to shifting cultural conditions has led contemporary researchers to re-confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today. The SAGE Handbook of Marxism showcases this cutting edge of today's Marxism. It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century. A rigorous and challenging collection of scholarship, this book contains a stunning range of contributions from contemporary academics, writers, and theorists from around the world and across

disciplines invaluable to scholars and graduate students alike Part 1 Reworking the critique of political economy Part 2 Forms of domination subjects of struggle Part 3 Political perspectives Part 4 Philosophical dimensions Part 5 Land and existence Part 6 Domains Part 7 Inquiries and debates **Louis Althusser and the Traditions of French Marxism** William S. Lewis, 2005-01-01 In a careful exposition of French Marxism William Lewis places Althusser and his thought alongside the pre and post war French communist intellectual climate the result is an excellent and unique work Part theoretical treatise on some of Althusser's more complicated and less explored ideas part intellectual history Louis Althusser and the Traditions of French Marxism is in total an important text for philosophy French and francophone studies political thought cultural studies marxist thought and several other disciplines interested in the intellectual life and times of the twentieth century *Research Handbook on Law and Marxism* O'Connell, Paul, Özsu, Umut, 2021-12-14 This Research Handbook offers unparalleled insights into the large scale resurgence of interest in Marx and Marxism in recent years with contributions devoted specifically to Marxist critiques of law rights and the state **Marxism, Pragmatism, and Postmetaphysics** Ulf Schulenberg, 2019-02-15 From Finding to Making offers the first detailed discussion of the relationship between Marxism and pragmatism These two philosophies of praxis are not incompatible and an analysis of their relation helps one to better understand both Establishing a transatlantic theoretical dialogue this book discusses similarities and differences between these philosophies It is an interdisciplinary study that brings together philosophy American and European intellectual history and literary studies Schulenberg's book shows that if we seek to continue the unfinished project of establishing a genuinely postmetaphysical culture the attempt to elucidate the dialectics of Marxism and pragmatism is a good starting point The book offers detailed discussions of Sidney Hook Georg Lukács Theodor W Adorno Fredric Jameson W E B Du Bois John Dewey Richard Rorty and Jacques Rancière **Marx's Dream** Tom Rockmore, 2018-06-07 Two centuries after his birth Karl Marx is read almost solely through the lens of Marxism his works examined for how they fit into the doctrine that was developed from them after his death With Marx's Dream Tom Rockmore offers a much needed alternative view distinguishing rigorously between Marx and Marxism Rockmore breaks with the Marxist view of Marx in three key ways First he shows that the concern with the relation of theory to practice reflected in Marx's famous claim that philosophers only interpret the world while the point is to change it arose as early as Socrates and has been central to philosophy in its best moments Second he seeks to free Marx from his unsolicited Marxist embrace in order to consider his theory on its own merits And crucially Rockmore relies on the normal standards of philosophical debate without the special pleading to which Marxist accounts too often resort Marx's failures as a thinker Rockmore shows lie less in his diagnosis of industrial capitalism's problems than in the suggested remedies which are often unsound Only a philosopher of Rockmore's stature could tackle a project this substantial and the results are remarkable a fresh Marx unencumbered by doctrine and full of insights that remain salient today **Marx and We** Sun Zhengyu, 2024-08-01 Marxist ideology is the only fully scientific

ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations

Uncover the mysteries within Explore with is enigmatic creation, **Marxism The Status Of Philosophy** . This downloadable ebook, shrouded in suspense, is available in a PDF format (PDF Size: *). Dive into a world of uncertainty and anticipation. Download now to unravel the secrets hidden within the pages.
