Marxism and Historical Practice (Vol. II) Bryan D. Palmer, 2015-09-01 The two volumes of Marxism and Historical Practice bring together a wide range of essays written by one of the major Marxist historians of the last fifty years Collected in Volume II Interventions and Appreciations are articles and reviews capturing the breadth of Palmer's interests as a radical historian Cultural forms and representational productions are analysed political readings of historiography and pioneering historical practice provided Themes as diverse as the analytic and political contributions of Eric Hobsbawm and E P Thompson the conflicted legacies of American Trotskyism and the representation of class politics in Scorsese's Gangs of New York are covered

Varieties of Marxism Shlomo Avineri, 2012-12-06 The essays included in this volume are based on papers delivered at the International Symposium on Varieties of Marxism held at the Van Leer

Jerusalem Foundation on June 16 19 1974 and dedicated to the memory of George Lichtheim When the idea of such a symposium was first raised the organizers planned to have George Lichtheim as one of the main speakers at the event In our last and brief meeting in London I suggested this to him and Lichtheim gave his consent to attend the symposium though at that time no date was yet fixed His tragic death a few months later left a gap not only in the program of the symposium but in Marxist studies generally it was felt that perhaps one way of paying tribute to his contribution to the study of a subject so near to his mind would be to name the symposium in his memory and devote an introductory paper to an attempt at an intellectual portrait of George Lichtheim as an historian of ideas The volume as published includes all papers delivered at the symposium with the exception of the papers of J L Talmon Jerusalem on Marxism and Nationalism and Gajo Petrovic Zagreb on Yugoslav Marxism Appended is also a short obituary written by me on Lichtheim for the journal Political Science published by the American Political Science Association

Louis Althusser and the Traditions of French Marxism William Lewis, 2005-10-17 Throughout the course of the twentieth century communism has enjoyed direct competition with all other governmental and economic systems Often communist countries produced their own special brand of party intellectual These figures rightly occupied their place within their own national context and within the context of the International Some communist intellectuals through the high level of erudition exhibited in their writing have received a wider reception despite their direct linkage to party politics e.g. Antonio Gramsci Georg Lukacs and Victor Serge are good examples After 1956 when Khrushchev exposed Stalin's atrocities to the Twentieth Congress of the Communist Party of the Soviet Union and as a result to the entire world Marxist philosophy was widely discredited It had been assumed that Stalin's excesses were somehow encouraged or supported through Marx's thought When in the mid 1960s Louis Althusser first offered his re-readings of Marx's philosophy it and communist political practice were in ruin However Althusser was in a unique cultural and historical position Thinking and writing concomitant with the structuralists and poststructuralists in France and also having access to certain theoretical tools while simultaneously committing himself entirely to Marxist thought Althusser was conceivably the last of his tradition He was a Marxist philosopher who unlike Sartre at the end of his life did not abandon communism to for instance existentialism In Louis

Althusser and the Traditions of French Marxism William Lewis gives readers a striking example of intellectual biography and critical theory His approach considering the work and life of Althusser within French Marxism and French intellectual culture fills a void in contemporary scholarship But much more importantly Lewis is able to show how Althusser s thought is the result of and a response to specific French intellectual and political traditions of reading Marx It is through this combination of concerns Pathos and Praxis Scott Davidson,2025-04-01 Pathos and Praxis presents a new and original framework for an integrated phenomenology of life It provides the first comparative study of two influential French philosophers Paul Ricoeur and Michel Henry and shows that their debates over the interpretation of Sigmund Freud and Karl Marx signal two rival approaches to the phenomenology of life Author Scott Davidson demonstrates that while Henry reveals the phenomenological meaning of life through an inward turn to a pure subjective feeling of being alive Ricoeur anchors its significance in the reciprocal interaction between the self and the world But these two alternatives are not necessarily opposed Pathos and Praxis proposes an integrated phenomenology of life to which both Henry and Ricoeur make an important contribution To be a self is to suffer the pathos of having a life but also to be capable of engaging in the praxis of leading a life By thinking the pathos and praxis of life together the integrated approach preserves human agency against deterministic conceptions of life and at the same time avoids the meritocratic hubris that depicts one s life solely as the result of one s own doing This integration of having and leading a life reframes our thinking about human capabilities and vulnerabilities in a way that has important implications for biopolitics and the ethics of life **Marx and Marxism** Peter Worsley,2013-08-21 Discusses varieties of Marxism distinguishing between ideas that remain valid those that are contestable and those that should be discarded Emphasises connections between theoretical debates real political struggles
