**Beethoven's Theatrical Quartets** Nancy November, 2014-01-09 Beethoven's middle period quartets Opp 59 74 and 95 are pieces that engage deeply with the aesthetic ideas of their time In the first full contextual study of these works Nancy November celebrates their uniqueness exploring their reception history and early performance In detailed analyses she explores ways in which the quartets have both reflected and shaped the very idea of chamber music and offers a new historical understanding of the works physical visual social and ideological aspects In the process November provides a fresh critique of three key paradigms in current Beethoven studies the focus on his late period the emphasis on heroic style in discussions of the middle period and the idea of string quartets as pure autonomous artworks cut off from social moorings Importantly this study shows that the quartets encompass a new lyric and theatrical impetus which is an essential part of their unique explorative character

**Beethoven's Critics** Robin Wallace, 1990-01-26 This 1990 book is a survey of the critical reaction to Beethoven's music as it appeared in the major musical journals French as well as German of his day and represents the first published history of Beethoven reception The author discusses the philosophical and analytical implications of these reviews and reassesses what has come to be the accepted view of a nineteenth century musical aesthetics rooted in Romantic Idealism Wallace sees Beethoven's critics as in fact providing a link between two apparently antithetical approaches to music the eighteenth century emphasis on expression and extra musical interpretation and the nineteenth century emphasis on absolute music and formal analysis This book thus provides in addition to a carefully documented study of Beethoven's critical reception a re-evaluation of his oeuvre and its significance in music history An
